	Methodologies		
Methodologies	Description		
Document analysis	Posing of different questions about the main contents developed in the program. A debate on them will be requested, ending		
	with a synthesis of the main ideas that emerged in it.		
Directed discussion	The students, in groups, will freely and assertively discuss a topic coordinated by the teacher		
Guest lecture /	cture / Synthetic oral presentation of the main contents of the program, supported by the bibliography provided to the students.		
keynote speech			
Supervised projects	Carrying out work aimed at intervention in psychological well-being		
Short answer	Students will have to take a short answer exam on the contents covered in the lecture sessions.		
questions			

Critical	An applied deepening work will be done in accordance with the guidelines set by the teacher.
bibliographical	

	Personalized attention		
Methodologies	Description		
Supervised projects	The personalized attention will be carried out both in the classroom, as in the network (email, Moodle, Teams) and in		
Critical	face-to-face tutorials (the latter will only be developed individually).		
bibliographical	It will consist of guiding and tutoring the student's learning process in the different theoretical and practical activities.		
Document analysis	All this will be done with the aim of facilitating the students to understand the information significantly, integrate it into their		
	knowledge structure and become actively involved.		

		Assessment	
Methodologies	Methodologies Competencies / Description		Qualification
	Results		
Supervised projects	B1 B2 B3 B6 B8 C7	The students will have to work on the development of activities that, based on the	20
	C8	knowledge previously acquired in the development of the subject, have the ultimate	
		goal of measuring, analyzing or improving the psychological well-being of people	
Critical	B1 B2 B6 B8	An applied deepening work will be carried out following the teacher's instructions.	20
bibliographical			
Document analysis	B1 B2 B6 B12 C6	The critical and reasoned participation of the students in relation to the analysis of the	10
		sources that the teacher offers as basic bibliography will be valued.	
Directed discussion	B1 B3 B6 B8 C4	The contributions that students make based on the knowledge acquired through	10
		reading the bibliography offered will be valued.	
Short answer	B1 B6 B8	The students will have to take a short answer exam on the contents covered in the	40
questions		lecture sessions	

Assessment comments

For students attending the subject (> 80% of the sessions), the exam (short answer test) will compute 40% of the total evaluation. The supervised works, reviews, discussions and analysis of documentary sources will constitute the remaining 30% of the final grade.

In the case of students with with recognition of academic dispensation, the exam (short answer test) will constitute 100% of the grade. In this compulsory exam, not only the contents covered in the lectures will enter, but also those developed in the supervised works, reviews, discussions and analysis of documentary sources that have been raised throughout the course.

## ADDITIONAL REMARKS:

- 1. To pass the subject it is necessary to obtain a score of 50% of the weight of each of the parts being evaluated (practical part and exam).
- 2. The July call will be subject to the same criteria as the May call.
- 3. As established in the "Standards for the assessment, review and claim of qualifications for two graduate studies and university studies" (approved on 12/19/2013 and modified on 04/30/2014) in Art. 21.2: It will be considered as ? Not presented ?(NP) to that student who, being enrolled in the subject, does not attend the different evaluation activities established for the academic year.

Thus, it will be classified as "Not presented" when:

- a) Do not complete the continuous evaluation process, under the conditions that appear in the teaching guide, or
- b) Does not appear for the test of the official evaluation period.
- 4. Regarding the fraudulent performance (plagiarism) of the evaluation tests, the qualification will adjust to the provisions of article 14. 4. Norms for the assessment, review and claim of qualifications for two university graduate and graduate studies: "In the realization of works, plagiarism and the use of non-original material, including that obtained through the internet, without express indication of its origin and, if it is the case, without the permission of its author, may be considered cause of qualification of failure in the activity. All this without prejudice to the disciplinary responsibilities to which there could be place after the corresponding procedure ". In accordance with this rule, the fraudulent performance of any activity subject to evaluation will imply a rating of "0" (Failure) in the current call.

Recommendations
Subjects that it is recommended to have taken before
Subjects that are recommended to be taken simultaneously
Subjects that continue the syllabus

## Other comments

This subject will advocate the use of an inclusive language, both in the interventions in the classrooms and in the contents worked on and activities carried out. Consistent with this perspective, the intervention of students in the classrooms will be encouraged.
