Assessment comments
---------------------

It was essential to obtain 50% of the corresponding qualification to each of the sections to evaluate different methodologies to obtain the final average grade to join. If the student does not get the minimum in any of the methodologies, the student does not exceed the matter. In this case, the assessment will consist of suspending in the ordinary call and be examined again in the opportunity of July where the assessment methodology will be a single objective test worth 100% of the qualification, covering both on theoretical and practical content of program.

Alternatively, students who can not do a normal pursuit of the subject, may choose to examine 100% of their qualifications through a final objective test. If not getting 50% of the total grade in the test, the evaluation will consist of suspending in the ordinary call and be examined again in July the opportunity, where the assessment methodology will be a single objective test worth 100% of the qualification covering both on theoretical and practical content program do.

All students shall show visibly in his record of student if they choose Continuous assessment or final exam. Of non expressly stated, or non deliver the ad in fifteen days after the start of the academic year, it means opting for the final exam. The choice is final and irreversible for the call in progress.

Curricular adaptations for students with disabilities or special educational needs will be patterned by the Commission of teaching center on the report of PAT
