Code	Study programme competences / results		
B1	Aprender a aprender.		
B2	Resolver problemas de forma efectiva.		
B3	Aplicar un pensamento crítico, lóxico e creativo.		
B4	Traballar de forma autónoma con iniciativa.		

B5	Traballar en colaboración.
B6	Organizar e planificar o traballo.
B7	Comunicarse de maneira efectiva nunha contorna de traballo.
B8	Sintetizar a información.
B9	Formarse unha opinión propia.
B10	Exercer a crítica científica.
B11	Debater en público.
B12	Adaptarse a novas situacións.
B13	Comportarse con ética e responsabilidade social como cidadán e como profesional.
C1	Expresarse correctamente, tanto de forma oral coma escrita, nas linguas oficiais da comunidade autónoma.
C3	Utilizar as ferramentas básicas das tecnoloxías da información e as comunicacións (TIC) necesarias para o exercicio da súa profesión e
	para a aprendizaxe ao longo da súa vida.
C4	Desenvolverse para o exercicio dunha cidadanía aberta, culta, crítica, comprometida, democrática e solidaria, capaz de analizar a
	realidade, diagnosticar problemas, formular e implantar solucións baseadas no coñecemento e orientadas ao ben común.
C5	Entender a importancia da cultura emprendedora e coñecer os medios ao alcance das persoas emprendedoras.
C6	Valorar criticamente o coñecemento, a tecnoloxía e a información dispoñible para resolver os problemas cos que deben enfrontarse.
C7	Asumir como profesional e cidadán a importancia da aprendizaxe ao longo da vida.
C8	Valorar a importancia que ten a investigación, a innovación e o desenvolvemento tecnolóxico no avance socioeconómico e cultural da
	sociedade.

		Methodolo	gies			
Methodologies			Description			
Supervised projects	The company or institution will a	appoint a supervisor (BS	Sc, MSc or PhD) with the	following functions:		
	1. Submit to the Faculty of Scie	nce a document includir	ng a brief description of th	he tasks to be conducte	d by the student. In	
	addition to this, the supervisor w	will list in the document t	the specific skills the stud	dent will need to comple	te the tasks during th	
	internship. Finally, the learning	outcomes for the studer	nt should also be included	d in the document.		
	2. Guide the student during the	internship.				
	3. Write a final report, addresse	ed to the Dean of the Fa	culty of Science, assessi	ng the quality of the stud	dent?s work.	
	The student will also have an a	cademic supervisor at th	ne Faculty of Science. He	e/She will evaluate the re	eport submitted by th	
	student offering advice and sug	gesting improvements.	A second version of the r	eport will be submitted	to the ?Negociado de	
	alumnos? (student?s office) tog	ether with a form reque	sting its assessment.			
Summary	The report submitted by the stu	dent will include the follo	owing parts, and in the fo	llowing order:		
	1. CONTENTS					
	1.1 This section must include a	list of all the documents	s of the report			
			·			
	2. DETAILS OF THE STUDEN	г				
	2.1 Brief information about the	student, including surna	mes, name, ID number (I	DNI for Spanish student	s), address, telephor	
	number and e-mail					
	3. DETAILS OF THE COMPAN	Y/INSTITUTION				
	3.1 Brief information about the	company/institution, incl	uding name, address, ac	tivities, number of empl	oyees, etc)	
	4. SUMMARY OF THE TASKS	CONDUCTED DURING	G THE INTERNSHIP			
	4.1 Summary of the work done by the student during the internship					
	5. DESCRIPTION OF THE ACT	TIVITIES OF THE STUD	DENT			
	5.1 Aims of the internship.					
	5.2 Tasks conducted. Describe the experimental and theoretical basis of the student?s activities during the internship. If					
	necessary, the student must consider the need to avoid disclosure of confidential information.					
	5.3 Schedule. Time and duratio	n of the activities condu	icted. Information about t	he company/institution	sections or units in	
	which the student performed his/her tasks.					
	5.4 Courses or seminars taken by the student that are related to the internship. Specific knowledge acquired by the student					
	during the internship (use of co	mputer tools, particular	skills, etc)			
	5.5 Integration of the student in		company/institution. Inclue	de an analysis of the stu	Ident?s working	
	relationship with the staff of the	งงาทุกสาร/การแนแบก.				
	6. CONCLUSIONS					
	6.1 Assessment of the usefulne			ne tasks conducted in th	e internship.	
	6.2 Personal evaluation of the s	skills acquired during the	e internship.			
	6.3 Declaration of responsibility					

Personalized attention

Methodologies	Description
Summary	Personalized attention will be available to the student from the academic and the professional supervisors. Personalized
Supervised projects	attention will also be a tool for the continuous assessment of the student.

		Assessment		
Methodologies	Competencies / Description		Qualification	
	Results			
Summary	B3 C1 C6 C7	In order to be evaluated and to attain academic recognition for the internship, the student must submit a report, addressed to the Dean of the Faculty of Science, including a detailed summary of the different activities conducted. The report should follow the guidelines including in section 5 of this teaching guide (Methodologies). The academic supervisor will revise the report and will suggest changes and corrections. The student will consider these corrections and will prepare a final version of the report. This final version will be again submitted, this time to the Negociado de alumnos (student's office) together with a form requesting its evaluation.	50	
Supervised projects	B1 B2 B3 B4 B5 B6 B7 B8 B9 B10 B11 B12 B13 C1 C3 C4	The company or institution will appoint a supervisor who will submit a final report, addressed to the Dean of the Faculty of Science, wherein he/she will assess the quality of the work conducted by the student.	50	
	C5 C6 C7 C8			

Assessment comments

The final grade will be based on the performance of the student during the internship and on the quality of the submitted report. Those students who do not complete the number of hours required at the company/institution or who do not submit the report on time will have a maximum qualification of 4,5 (fail). When the number of hours are not completed, the qualification will be proportional to the numbers of hours worked (and below 4,5). If there are compelling reasons, the student will be able to apply for a waiver to pass the course without completing the work period to the Dean of the Faculty of Sciences.

Other comments

Internships should be undertaken in the summer between the third and the fourth years of the degree, once the semester is finished. Students who do this will have more time during the second semester of their third year, which is usually stressful.Green Campus Science Faculty ProgramTo contribute to achieve an immediate sustainable environment and comply with point 6 of the "Environmental Declaration of the Faculty of Sciences (2020)", the documentary works carried out in this subject:- They will be requested mostly in virtual format and electronic form.- If it is printed: - Plastics will not be used. - Double-sided prints will be made. - Recycled paper will be used. - Drafts will be avoided.Incorporation of the gender perspective- As stated in the various applicable regulations for university teaching, the gender perspective must be integrated into this subject (using non-sexist language, using bibliography from authors of both genders, encouraging the participation of male and female students in classroom...).- Efforts will be made to identify and modify sexist biases and attitudes, and the environment will be influenced to change them and promote values of respect and equality.- Situations of gender discrimination should be identified, and actions and measures will be proposed to correct them.

(*)The teaching guide is the document in which the URV publishes the information about all its courses. It is a public document and cannot be modified. Only in exceptional cases can it be revised by the competent agent or duly revised so that it is in line with current legislation.
