Language	Spanish					
Teaching method	Face-to-face					
Prerequisites						
Department	Empresa					
Coordinador	Boedo Vilabella, Lucia	E-mail	lucia.boedo@udc.es			
Lecturers	Boedo Vilabella, Lucia Iglesias Antelo, Susana	E-mail	lucia.boedo@udc.es susana.iglesias.antelo@udc.es			
Web	campusvirtual.udc.gal					
General description	Subject that aims to introduce students to basic concepts and theories in the field of financial asset valuation.					

Study programme competences	
Code	Study programme competences
A13	Coñecer e aplicar, mediante ferramentas informáticas, os conceptos e teorías que constitúen a base das finanzas modernas
A15	Comprender os modelos de valoración de activos financeiros; crear e xestionar carteiras de valores
B3	Uso adecuado dos medios e sistemas de información dispoñibles.
B4	Habilidades informáticas.
B5	Habilidades de presentación oral e escrita.
B7	Habilidade para traballar de forma autónoma e tomar decisións.
B8	Capacidade de organizar e planificar, saber administrar o tempo.
B12	Preocupación pola calidade, por facer as cousas ben.
B14	Análise e toma de decisións en materia de riscos financeiros e de investimento
B15	Explotación da información dispoñible para a planificación e a toma de decisións
B16	Utilización de técnicas estatísticas e económétricas para a resolución de problemas específicos no ámbito das finanzas e a banca
B17	Comprensión do concepto de valor temporal do diñeiro e aprendizaxe dos instrumentos de matemáticas financeiras que o utilizan para resolver distintos problemas no ámbito das finanzas
B18	Adquisición da capacidade necesaria para analizar a situación financeira da empresa nun momento determinado, establecemento das correccións adecuadas e planificación do seu futuro
B20	Estudo da solvencia das empresas e das entidades financeiras
B23	Coñecemento dos principais aspectos que abarca a actividade bancaria
B24	Posuir e comprender coñecementos que acheguen unha base ou oportunidade de ser orixinais no desenvolvemento e/ou aplicación de ideas, a menudo nun contexto de investigación
B25	Que os estudantes saibam aplicar os coñecementos adquiridos e a súa capacidade de resolución de problemas en contornas novas ou pouco coñecidas dentro de contextos más amplos (ou multidisciplinares) relacionados coa súa área de estudio
B26	Que os estudantes sexan capaces de integrar coñecementos e enfrentarse á complexidade de formular xuízos a partir dunha información que, sendo incompleta ou limitada, inclúa reflexións sobre as responsabilidades sociais e éticas vinculadas á aplicación dos seus coñecementos e xuízos.
B27	Que os estudantes saibam comunicar as súas conclusións e os coñecementos e razóns últimas que as sustentan a públicos especializados e non especializados dun modo claro e sen ambigüidades
B28	Que os estudantes posúan as habilidades de aprendizaxe que lles permitan continuar estudiando dun xeito que haberá de ser en grande medida autodirixido ou autónomo.
C3	Using ICT in working contexts and lifelong learning

Learning outcomes

Learning outcomes	Study programme competences		
Knowledge of the concepts and theories that form the basis of modern finance and understanding of their practical implications	AJ13 AJ15	BJ5 BJ7 BJ8 BJ12 BJ14 BJ15 BJ16 BJ17 BJ18 BJ20 BJ23 BJ24 BJ25 BJ26 BJ27 BJ28	
Practical application of financial models using a spreadsheet	AJ13	BJ3 BJ4	CC3
Knowledge oriented to passing the EFA and LCCI exams		BJ3 BJ14 BJ16 BJ17	

Contents	
Topic	Sub-topic
VARIABLE INCOME	
1. Return and risk	1.1. Return of securities and portfolios 1.2. Volatility of securities and portfolios 1.3. The concept of diversification 1.4. The assumption of normality of asset returns
2. Portfolio selection	2.1. Fundamental aspects of Portfolio Theory 2.2. Optimal portfolio selection: the Markowitz model 2.3. Sharpe's market model
3. Capital asset pricing	3.1. The capital asset equilibrium model (CAPM) 3.2. CAPM applications: 3.2.1. Cost of equity 3.2.2. Capital asset pricing 3.2.3. Risk-adjusted return
FIXED INCOME	
1. General characteristics of fixed income assets	1.1. The issuance of bonds and obligations. Typology. 1.2. Risks of investing in bonds
2. Valuation of fixed income assets	2.1. The market interest rate and its effect on the price of bonds 2.2. Duration as a measure of market risk 2.3. The modified duration as a measure of market risk 2.4. The Basic Point Value 2.5. The modified duration error. Convexity

Case study	A13 A15 B3 B4 B5 B7 B8 B14 B16	2	2	4
Mixed objective/subjective test	B5 B7 B12 B14	2	8	10
Mixed objective/subjective test	B5 B7 B12 B14	2.5	5	7.5
Personalized attention		1	0	1

(*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies	
Methodologies	Description
Guest lecture / keynote speech	Oral presentation supported by audiovisual media. It includes theoretical sessions and practical sessions with examples.
ICT practicals	Practical sessions in which financial models are applied using a spreadsheet.
Case study	Real cases analysis.
Mixed objective/subjective test	Exams that include practical and theoretical questions for a continuous evaluation.
Mixed objective/subjective test	Final exam that include practical and theoretical questions.

Personalized attention	
Methodologies	Description
Case study	Tutoring and supervision of students' work in the classroom and through email, Teams and tutoring in the teachers' offices.
Mixed objective/subjective test	
ICT practicals	
Mixed objective/subjective test	

Assessment			
Methodologies	Competencies	Description	Qualification
Mixed objective/subjective test	B5 B7 B12 B14	Exam of the subject that represents 70% of the final grade that can be obtained (maximum 7 points). It will be held in January (first chance) and July (second chance) on the dates set by the faculty.	70
Mixed objective/subjective test	B5 B7 B12 B14	Continuous evaluation exams that represent 30% of the final grade (maximum 3 points) and will be held during the class period.	30
Others			

Assessment comments

**EVALUATION REGULATIONS:**

1. Attendance: To pass the subject, students enrolled full time must participate in at least 80% of the scheduled face-to-face activities.
2. Evaluation conditions: It is forbidden to access the exam room with any device that allows communication with the outside and / or information storage.

Regarding

the commission of fraudulence and disciplinary responsibilities, in the general case will be applied what is established in the: "Normas de evaluación, revisión y reclamación de las calificaciones de los estudios de grado y master universitario" ("Rules for evaluation, review and claim of the qualifications of undergraduate and university master's studies") of the UDC. In particular, a fraudulent performance of the exams or other evaluation activities, once verified, will directly imply the qualification of fail in the call that is committed: the student will be qualified with "fail" (numerical grade 0) in the corresponding call of the academic year, whether the commission of the fault occurs in the first opportunity or in the second. For this, the modification of the student's grade in the first opportunity record will be done if it were necessary.

3. Identification: The student must prove his/her personality in accordance with current regulations.

TYPES OF RATING:

1. Qualification of not presented: It corresponds to the person who only participates in evaluation activities that have a weighting lower than 20% on the final qualification, regardless of the qualification achieved.
2. Students with recognition of part-time dedication and academic exemption from attendance: They will be evaluated with the same criteria as full-time students.

EVALUATION OPPORTUNITIES:

1. The evaluation criteria are the same for the first and the second opportunities.
2. The evaluation of the early opportunity will be done through an exam that will account for 100% of the final grade.
