General description	Master's Thesis contents and organisation			

Study programme competences

Code	Study programme competences
A1	To know the Spanish financial reporting standards
A2	To know the International Financial Reporting Standards.
A3	To know the Spanish financial reporting auditing standards.
A4	To know the International Auditing Standards
A5	To know how to obtain an adequate understanding of the business of the audited entity, the sector in which it operates and the nature of its transactions.
A6	To know how to measure and analyze the origin of costs and income obtained by the audited entity.
A7	To know how to assess from the relevant records of financial information, the situation and foreseeable evolution of a company.
A8	To know how to identify the audit risks associated with the probability of error of each important component of the financial information.
A9	To know how to document the procedures and accounting principles followed by the entity as well as the accounting systems used to record their transactions.
A10	Know how to determine the nature, scope and time of execution of the work to be carried out and prepare, as a result, a written audit program.
A11	To know how to obtain sufficient and adequate evidence by conducting and assessing the audit tests deemed necessary.
A12	Know how to obtain a reasonable basis of judgment on the individual and consolidated annual accounts and express an opinion regarding them in the audit report, in accordance with regulation in force.
B1	Adequate oral and written expression in the official languages.
B3	Using ICT in working contexts and lifelong learning.
B4	Acting as a respectful citizen according to democratic cultures and human rights and with a gender perspective.
B8	Valuing the importance of research, innovation and technological development for the socioeconomic and cultural progress of society.
B10	Critically assessing knowledge, technology and available information when facing problems.
B12	

C1	Possess and understand knowledge that provides a basis or opportunity to be original in the development and / or application of ideas, often in a research context.
C2	That students know how to apply the knowledge acquired and their ability to solve problems in new or unfamiliar environments within broader (or multidisciplinary) contexts related to their area of study.
C3	That students are able to integrate knowledge and face the complexity of making judgments based on information that, being incomplete or limited, includes reflections on social and ethical responsibilities linked to the application of their knowledge and judgments.
C4	That students know how to communicate their conclusions and the knowledge and ultimate reasons that sustain them to specialized and non-specialized audiences in a clear and unambiguous way.
C5	That students have the learning skills that allow them to continue studying in a way that will be largely self-directed or autonomous.
C6	Capacity for teamwork.
C7	Capacity for leadership.
C8	Ethical and moral commitment to society, analyzed, in addition, from a solidarity perspective.
C9	Ability to solve problems.
C10	Development of the principles of loyalty and confidentiality.
C11	Development of a logical and creative critical spirit.
C12	Capacity to manage information and communication technologies in the exercise of their professional activity.

Assessment comments
<p>In accordance with current regulations for master's degree final projects, approved by the University of A Coruña and by the Faculty of Economics and Business.</p> <p>A subject and a tutor will be assigned to each student at the beginning of the course.</p> <p>Each student must send their tutor an index for the realization of it.</p> <p>The tutor must have approved the index or required the student the modifications he deems appropriate.</p> <p>At the end of the first semester, students must send their tutors a complete draft subject to revision of the first half of the TFM. Tutors must submit the revised TFM's within the first month of the second semester lessons. The second half of the TFM must be sent to the tutors before the closing of the minutes of the second semester. Failure to comply with these deadlines may result in the tutor not issuing a favorable report for reading within the announcements of the academic year (June, July and September). In any case, the failure to comply with the submission deadlines will determine that the FM T be reviewed by the tutor in the last place, once the TFM's have been reviewed that did comply with the presentation rules according to the pre-established schedule.</p> <p>Throughout the period of teaching of the corresponding subject, the lecturers involved in the teaching of the subjects whose content directly affects the contents of the TFM will co-tutor the students, helping to solve the doubts that may arise in their preparation.</p> <p>The defense of the master's thesis will be done before a tribunal formed by three professors from the area of ??Financial Economics and Accounting, appointed by the academic-teaching commission of the Faculty of Economics and Business.</p>
