Guest lecture / keynote speech	Oral presentation of each of the lessons that integrate the contents of the subject, with the purpose of transmitting knowledge and facilitate learning.
Mixed objective/subjective test	Evaluation method consisting of a written test (exam) that each student must take individually.
Long answer / essay questions	Throughout the course, from time to time, students will take a test that they will have to give to the teacher for their evaluation. It will also help students to check their progress in the subject matter of the subject.

Personalized attention	
Methodologies	Description

Mixed objective/subjective test	Generic personalized attention consists of the traditional tutoring through which the teacher makes himself available to students at a specific time, so that they can consult or solve any problem with him individually.
	Personalized attention in the mixed test takes place after your evaluation. In the traditional exam's review, the teacher will attend personally to the student who requests it, showing the test already done and explaining the correctness of it.
	PERSONALIZED CARE MEASURES SPECIFIC TO STUDENTS WITH RECOGNITION OF PARTIAL TIME DEDICATION will focus, always taking into account student availability, in establishing substitute options for those evaluation parties that, due to their special circumstances, cannot be fully developed. In this way, the continuous evaluation of students with recognition of dedication on time Partial will not be exactly the same as that of students with full dedication, being modulated and adapted to each case specifically, in attention to the personal circumstances of each one.

Assessment comments
<p>IMPORTANT: TEST / DEVELOPMENT TESTS, WHICH ALLOW THE CONTINUOUS ASSESSMENT OF THE STUDENT, ONLY MAY BE PERFORMED BY THOSE STUDENTS WHO ATTEND AND REGULARLY PARTICIPATE IN THE CLASSES OR CLASSROOMS OF THE SUBJECT. The evaluation in the SECOND CHANCE will follow exactly the same criteria as in the first. Thus, it should be taken into account that IN THE SECOND OPPORTUNITY, THE EXAM GRADE ALWAYS SUPPOSES 70% OF THE COURSE'S GRADE.</p> <p>In the case of students with recognition of part-time dedication, the test must be taken into account for mandatory evaluation, Mixed and test tests. The mixed test, as with the other students, will be worth seventy percent of the final grade. In this case, also the essay / development tests will account for thirty percent of the final grade for the subject. But in the latter case it will be taken into account the availability of the students, being able to establish substitute dates of those initially planned for the rest of the students.</p> <p>Any attempt at fraud or plagiarism in any of the activities that take place during the course, in the essay tests or in the final exam, will be penalized with an automatic failure in the matter (score: 0).</p>
