Assessment comments

Students are required to contribute actively in the classes, which are designed as a resource to encourage them to acquire and assimilate the contents. First session Students must obtain a passing grade (50%) on each section included in the assessment (workshop, speaking and mixed test). If they obtain a failing grade on any of these sections and even though the sum is greater than 5, the final grade for this session will not be higher than 4.5 out of 10. Students with a waiver on attendance Students with a waiver on attendance will be assessed in accordance with the section referring to the first session. Students must contact the teaching staff as soon as they have received official notification of the waiver. Second session The same assessment method applies for the second session as for the first, and students must retake those sections of the subject in which they did not obtain a passing grade or which they did not sit. In the case of the Workshop, this will consist of an additional task that will be included in the mixed objective/subjective test (written exam). This is ONLY valid for the two opportunities corresponding to the current academic year. Early exam session In the case of the early exam session, students must take a written exam (70%) and an oral exam (30%). ABSENT Only those students that have not taken part in any of the activities and tasks that comprise the overall assessment of the subject will receive the consideration of ABSENT. Academic dishonesty/plagiarism implication

Proven fraudulent practice in exams or assessment activities will automatically imply a failing grade for the corresponding exam session and subject. The student will be graded with a "fail" (numerical grade 0) for the corresponding academic year, regardless of whether the offence is committed in the first or second session. In this sense, the grade for the first session may be modified, if necessary.

Diversity

Students may request measures aimed at supporting diversity (physical, visual, auditory, cognitive, learning or mental health-related). They should contact the services available at the UDC, the Diversity Attention Unit (<https://www.udc.es/cufie/ADI/apoioalumnado/>) or, failing that, the tutor with responsibility for diversity at the Faculty of Tourism, within the time period stipulated for each teaching session.

Gender

perspective

In accordance with the various regulations governing university teaching, it is necessary to incorporate a gender perspective into this subject. This includes, among other measures, the use of non-sexist language, bibliographies that are inclusive from a gender perspective, and encouraging participation from all students in class, regardless of their gender. We will pay particular attention to identifying and addressing sexist prejudices and attitudes. We will actively work towards the modification of this environment and the promotion of values of respect and equality. Our efforts will focus on detecting cases of gender discrimination and implementing appropriate actions to rectify such cases.

Other comments

Although this is not a general English course, the level is pitched at B2 of the Common European Framework of Reference for Languages. Acquiring foreign language skills requires constancy, continuity and self-learning. Equality In line with the provisions regulating equality, gender issues are addressed in this subject through the use of inclusive and non-sexist language. Likewise, values based on respect and equality shall be encouraged in the classroom. Should any form of discrimination be detected, the necessary actions and measures will be adopted to redress the situation.
