

Teaching Guide

Identifying Data					2023/24
Subject (*)	Fashion Design	Code	710G03010		
Study programme	Grao en Xestión Industrial da Moda				
Descriptors					
Cycle	Period	Year	Type	Credits	
Graduate	1st four-month period	Second	Basic training	6	
Language	SpanishGalician				
Teaching method	Face-to-face				
Prerequisites					
Department	Proxectos Arquitectónicos, Urbanismo e Composición				
Coordinador	Muñiz Núñez, Patricia	E-mail	patricia.muniz@udc.es		
Lecturers	Muñiz Núñez, Patricia	E-mail	patricia.muniz@udc.es		
Web	ddm.materias.udc.gal/				
General description	General approach to fashion design, from history and culture, with specific contextualized references, to new trends. Analysis of the search and research creative processes, the development of the project, its graphic expression, basic prototyping and different techniques.				

Study programme competences / results

Code	Study programme competences / results
A6	To know and to know how to use the necessary tools to implement, conceptualize and launch collections
A18	To know the plastic and visual languages in the realm of fashion industry design, in order to understand and interpret the artistic creations of fashion garments
B1	That students demonstrate that they acquired and understood knowledge in a study area that originates from general secondary education and that can be found at a level that, though usually supported by advanced textbooks, also includes aspects implying knowledge from the avantgarde of its field of study
B2	That students know how to apply their knowledge to their job or vocation in a professional form, and have the competencies that are usually demonstrated through elaboration and advocacy of arguments and problem resolution within their field of study
B3	That students have the capacity to collect and interpret relevant data (normally within their field of study) in order to issue judgements that include a reflection upon relevant topics in the social, scientific or ethical realm
B4	That students may convey information, ideas, problems and solution to the public, both specialized and not
B5	That students develop those learning skills that are needed to undertake ulterior studies with a high degree of autonomy
B7	Capacity to analyse trends (critical thinking)
B8	Capacity to plan, organize and manage resources and operations
B9	Capacity to analyse, diagnose and take decisions
B10	Capacity to understand the social and historical-artistic dimension of fashion design and industry, as vehicle for creativity and the quest for new and effective solutions
C3	Using ICT in working contexts and lifelong learning.
C8	Valuing the importance of research, innovation and technological development for the socioeconomic and cultural progress of society.

Learning outcomes

Learning outcomes	Study programme competences / results

To know and use the necessary tools for the realization, conceptualization and release of collections.	A6 A18	B1 B2 B3 B4 B5 B7 B8 B9 B10	C3 C8
To know the visual and plastic languages in the field of fashion industry design, understanding and interpreting the artistic creation of fashion.	A6 A18	B1 B2 B3 B4 B5 B7 B8 B9 B10	C3 C8

Contents	
Topic	Sub-topic
1. Initiation to fashion design	<ul style="list-style-type: none"> - Design: functions, techniques, attitudes, ideas and values - The language of fashion. Fashion as a non-verbal communication system and support for social communication. - Referents and determining contexts
2. The creative process	<ul style="list-style-type: none"> - Inspiration - Moodboard - Sketches and drawing in detail - Approach to colors and materials - Technical documents - Prototyping - Clothing
3. Identity	<ul style="list-style-type: none"> - Identity construction processes - Cultural identity through fashion and its transforming power
4. Colours	<ul style="list-style-type: none"> - Color psychology - Theories. Color wheel and harmonies - Color palette - Application in fashion
5. Fabrics	<ul style="list-style-type: none"> - Fabrics and techniques. Style, aesthetics, ergonomics, functionality, durability, psychology and expressive possibilities. - Innovation and technology
6. Recycling and sustainability	<ul style="list-style-type: none"> - The influence of design and production processes on the sustainability of fashion. Fast fashion / Slow fashion. Zero waste
7. E Experimental design techniques	<ul style="list-style-type: none"> - Deconstruction and transformation of volumes - Use of new materials - FabTextiles- Experimental digital culture. Digital manufacturing tools.
8. Interdisciplinary contexts	

Planning

Methodologies / tests	Competencies / Results	Teaching hours (in-person & virtual)	Student?s personal work hours	Total hours
Guest lecture / keynote speech	A6 A18 B1 B2 B3 B4 B5 B7 B8 B9 B10 C3 C8	21	20	41
Workshop	A6 A18 B1 B2 B3 B4 B5 B7 B8 B9 B10 C3 C8	10	25	35
Supervised projects	A6 A18 B1 B2 B3 B4 B5 B7 B8 C3	6	40	46
Events academic / information	B2 B4 B8 B9 B10 C8	4	10	14
Objective test	A6 A18 B1 B3 B4 B5 B7 B9 B10 C3 C8	2	10	12
Personalized attention		2	0	2

(*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies	
Methodologies	Description
Guest lecture / keynote speech	Theoretical classes and oral presentations complemented by the use of audiovisual media in order to transmit the fundamentals bases of the knowledge and facilitate their learning.
Workshop	Training modality oriented to the application of learning in which different methodologies/test - exhibitions, simulations, debates, problem solving, guided practices and so on - can be combined. Through them students develop tasks that eminently practical on a specific topic, with the support and supervision of the professors. The students will adapt to the service-learning methodology if it is chosen by the teacher for the workshop.
Supervised projects	Complementary to the lectures and the workshop and in order to promote an autonomous and group learning. The students will continuously develop practical analytical work in various formats under the supervision of the professors.
Events academic / information	Activities involving attendance at and participation in academic and information events (conferences, congresses, symposia, lectures, presentations, etc.), aimed at increasing student knowledge of specific elements of course content. Provides students with relevant learning experiences by bringing them into contact with latest thinking in particular areas of study.
Objective test	Questions about the program will be answered on paper in written form, extensive or graphic format.

Personalized attention	
Methodologies	Description
Supervised projects	Monitoring and supervision of the distance activities linked to supervised projects.

Assessment			
Methodologies	Competencies / Results	Description	Qualification
Objective test	A6 A18 B1 B3 B4 B5 B7 B9 B10 C3 C8	Questions about the program will be answered on paper in written form, extensive or graphic format. This test can be replaced by different individual tests that will be carried out during the course as a continuous evaluation.	30
Supervised projects	A6 A18 B1 B2 B3 B4 B5 B7 B8 C3	As a complement to expository and interactive classes and with the objective of promoting autonomous and groupal learning. Students will continually develop practical works in different formats under supervision.	70

Assessment comments

1.- Assessment - To pass the subject, students will have two opportunities:

- First Opportunity - At the first one, students will be evaluated upon the outcomes content on their individual and group supervised works. Those who do not pass the individual ones, will be able to attend the objective theoretical-practical, according to the official calendar (January).
- Second Opportunity ? In case of not passing the evaluation in the first opportunity, the student will be able to make the use of the second one, according to the official calendar, which will consist of a mixed theoretical-practical test.

2.- Advance call. Students who have the right to the advanced opportunity must take a mixed theoretical-practical test on the dates established by the academic calendar. 3.- Qualification of not presented

Failure to submit group assignments on the designated dates implies a grade of "Not Presented." 4.- Students with recognition of part-time dedication and academic waiver of attendance exemption

Attendance is compulsory. At least, 80% of the sessions that make up the course. Without this requirement, students will not be able to pass the subject by subject. Students with recognition of part-time dedication and academic exemption from exemption from attendance are excluded from this requirement, as established in "NORMA QUE REGULA O RÉXIME DE DEDICACIÓN AO ESTUDO DOS ESTUDANTES DE GRADUACIÓN UDC" (Arts. 2.3; 3.b e 4.5) (29/5/2012). Those enrolled after the start of the academic year must attend the theoretical and practical classes from the date of enrolment, with the possibility of recovering the practices carried out to date.

The other rules without conflicting the previous ones will affect all late registration students.

Incoming and outgoing mobility students will be adapted to the same rules as regular students.

Diversity attention: The subject may be adapted to students who require the adoption of measures aimed at supporting diversity (physical, visual, auditory, cognitive, learning or related to mental health). If this is the case, they must contact the services available at the UDC / center: within the official deadlines stipulated prior to each academic quarter, with the Diversity Attention Unit (<https://www.udc.es/cufie/ADI/apoioalumnado/>); failing that, with the ADI tutor of the Faculty of Humanities
