	Identifying E	Pata		2023/24
Subject (*)	Production Management		Code	730497210
Study programme	Mestrado Universitario en Enxeñaría	Industrial (plan 2018)	'	
		Descriptors		
Cycle	Period	Year	Туре	Credits
Official Master's Degree	e 1st four-month period	First	Obligatory	4.5
Language	Spanish			
Teaching method	Face-to-face			
Prerequisites				
Department	Empresa			
Coordinador	Crespo Pereira, Diego E-mail diego.crespo@udc.es		@udc.es	
Lecturers	Crespo Pereira, Diego	E-	mail diego.crespo	@udc.es
	Ríos Prado, Rosa		rosa.rios@ud	c.es
Web	http://www.gii.udc.es/			
General description	This subject teaches various methods for desingning and optimizing a production process from an operational point of			ess from an operational point of
	view.			

	Study programme competences
Code	Study programme competences
A10	EG2 - Knowledge and skills of strategy and planning applied to different organizational structures.
A13	EG5 - Knowledge of management information systems, industrial organization, production systems and logistics and quality management systems.
A14	EG6 - Capacities for work organization and human resources management. Knowledge on prevention of occupational risks.
B2	CB7 - That students know how to apply the knowledge acquired and their ability to solve problems in new or unfamiliar environments
	within broader (or multidisciplinary) contexts related to their area of ??study.
В3	CB8 - That students are able to integrate knowledge and face the complexity of making judgments based on information that, being
	incomplete or limited, includes reflections on the social and ethical responsibilities linked to the application of their knowledge and
	judgments.
B4	CB9 - That the students know how to communicate their conclusions -and the knowledge and ultimate reasons that sustain them- to
	specialized and non-specialized audiences in a clear and unambiguous way.
B13	G8 - Apply the knowledge acquired and solve problems in new or unfamiliar environments within broader and multidisciplinary contexts.
B14	G9 - Be able to integrate knowledge and face the complexity of making judgments based on information that, being incomplete or limited
	includes reflections on social and ethical responsibilities linked to the application of their knowledge and judgments.
B15	G10 - Knowing how to communicate the conclusions -and the knowledge and ultimate reasons that sustain them- to specialized and
	non-specialized publics in a clear and unambiguous way.
СЗ	ABET (c) - An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic,
	environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
C6	ABET (f) - An understanding of professional and ethical responsibility.
C7	ABET (g) - An ability to communicate effectively.
C8	ABET (h) - The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and
	societal context.

	Contents
Topic	Sub-topic
1. Manufacturing processes	
2. ABC costs analysis	
3. Time measurement	
4. Layout design	
5. Assembly line desing and balancing problems	
6. Production control	
7. Industrial ergonomics and workplace design	
8. Maintenance	
9. Quality management and Six Sigma	
The following topics develop the contents established in the	Manufacturing processes. Time measurement. Industrial ergonomics and workplace
tab of the Memory that are:	design. Assembly line desing and balancing. Production control. Quality management
	and Six Sigma. Maintenance.

Assessment comments

O "Alumnado con recoñecemento de dedicación a tempo parcial e dispensa académica de exención de asistencia" comunicarán ó inicio do curso a súa situación os profesores da materia, segundo establece a "Norma que regula o réxime de dedicación ao estudo dos estudantes de grao na UDC" (Art.3.b e 4.5) e as ?Normas de avaliación, revisión e reclamación das cualificacións dos estudos de grao e mestrado universitario (Art. 3 e 8b). Para os alumnos que soliciten a dispensa académica a avaliación será igual ao resto xa que os casos de estudo serán completados fora do horario de clases.Para os alumnos tanto de primeira como de segunda oportunidade, a avaliación realizarase dando o peso relativo indicado na táboa de metodoloxías, o mesmo que para os alumnos de convocatoria adiantada.

A realización fraudulenta das probas ou actividades de avaliación implicará directamente a cualificación de suspenso '0' na materia na correspondente convocatoria, invalidando así calquera cualificación obtida en todas as actividades de avaliación.
