Mixed objective/subjective test	A6 B7	0	8	8
Personalized attention		4	0	4

(*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies

Methodologies	Description
Guest lecture / keynote speech	The professor will teach most of the theoretical content of the subject through the explanation of the subjects in theoretical sessions through the platforms of the Virtual Campus of the University, in which the participation of the students will also be promoted. The professor will use media to better exposure of the contents of the subject.
Problem solving	During the classes, cases of study will be presented to the student for its analysis and discussion in class, as well as to the develop of individual or in group works. They will be evaluated and they will be part of the final grade. The cases corresponded with aspects of the theme. Simulation tools would be used to take decisions in some business games, proposed to the students.
Supervised projects	The development of a group work by the student will be proposed, with the help of the professor. The scope of this work and its particularities and weight in the final grade will be transmitted to students in due time. The work aims to help students develop their ability to work in a team developing an original and creative performance through the analysis of a specific case for which will have to implement the skills acquired throughout the course.
Mixed objective/subjective test	An exam at the end of the classes will be made. It is a test. The students will know in advance the number of questions and the scoring criterion.

Personalized attention

Methodologies	Description
Supervised projects Mixed objective/subjective test	It will be done in the tutorial hours of teachers so much of form presencial how in the presencial through the platforms of the Virtual Campus of the University

Assessment

Methodologies	Competencies	Description	Qualification
Problem solving	B5 B7 C2 C4 C6	The works and exercises proposed to the students along the clases will score a 5% of the final grade. His character is voluntary	5
Supervised projects	B2 B4 B6 B8 C1 C3 C5	The group work will be a 35% of the final score. Insofar as it's a subject oriented to practical application, it is essential that the student demonstrate its capacity of global analysis on a real specific case study. Their completion and presentation is mandatory, as well as the intermediate deliveries that will be part of the final grade. The student has to get over a 30% of the score of this part, repeaters from the previous year will not be saved the work grade.	35
Mixed objective/subjective test	A6 B7	Final exam will be until a 60% of the final grade. The student has to get over a 40% of the score of this part.	60

Assessment comments

The "Students with recognition of part-time dedication and academic distribution of attendance exemption" will communicate their situation to the professors of the subject at the beginning of the course, secondly, it establishes the "Rule that regulates the regime of dedication to the study of undergraduate students in the UDC" (Art. 3.b and 4.5) and the "Standards for evaluation, review and claim of grades for undergraduate and master's degree studies" (Art. 3 and 8b).

Students in this situation will be evaluated on the date approved by the School, through a joint objective test on the content of step 3 of the Guide. A work and its presentation by consensus with the teaching staff of the subject, this work may be individual or group to the extent that it is agreed with the student according to the needs of it. Likewise, it will establish a tutorial guide agreed with the student to help them overcome this problem. The weight of each part is as indicated in the table above. The second opportunity is evaluated in the same way.

Students who do not follow the continuous evaluation will be able to pass to a second opportunity where the general assessment will be the same as in the previous cases, this also applies to students with an early call. The weight of each part is as indicated in the table above. The students can improve the work for the second opportunity.

Implications of plagiarism, "the fraudulent performance of the tests or evaluation activities, once verified, will directly imply the grade of failing "0" in the subject in the corresponding call, thus invalidating any grade obtained in all the evaluation activities of face to the summons."
