	Methodologies		
Methodologies	Description		
Summary	The report submitted by the student will include the following parts, and in the following order:		
	1. CONTENTS		
	1.1 This section must include a list of all the documents of the report		
	2. DETAILS OF THE STUDENT		
	2.1 Brief information about the student, including surnames, name, ID number (DNI for Spanish students), address, telephone		
	number and e-mail		
	3. DETAILS OF THE COMPANY/INSTITUTION		
	3.1 Brief information about the company/institution, including name, address, activities, number of employees, etc)		
	4. SUMMARY OF THE TASKS CONDUCTED DURING THE INTERNSHIP		
	4.1 Summary of the work done by the student during the internship		
	5. DESCRIPTION OF THE ACTIVITIES OF THE STUDENT		
	5.1 Aims of the internship.		
	5.2 Tasks conducted. Describe the experimental and theoretical basis of the student?s activities during the internship. If		
	necessary, the student must consider the need to avoid disclosure of confidential information.		
	5.3 Schedule. Time and duration of the activities conducted. Information about the company/institution sections or units in		
	which the student performed his/her tasks.		
	5.4 Courses or seminars taken by the student that are related to the internship. Specific knowledge acquired by the student		
	during the internship (use of computer tools, particular skills, etc)		
	5.5 Integration of the student in the section/unit of the company/institution. Include an analysis of the student?s working relationship with the staff of the company/institution.		
	6. CONCLUSIONS		
	6.1 Assessment of the usefulness of the skills acquired during the degree and the tasks conducted in the internship.		
	6.2 Personal evaluation of the skills acquired during the internship.		
	6.3 Declaration of responsibility signed by the student (following the form included as Annex I).		
Supervised projects	The company or institution will appoint a supervisor (BSc, MSc or PhD) with the following functions:		
	1. Submit to the Faculty of Science a document including a brief description of the tasks to be conducted by the student. In		
	addition to this, the supervisor will list in the document the specific skills the student will need to complete the tasks during the		
	internship. Finally, the learning outcomes for the student should also be included in the document.		
	2. Guide the student during the internship.		
	3. Write a final report, addressed to the Dean of the Faculty of Science, assessing the quality of the student?s work.		
	The student will also have an academic supervisor at the Faculty of Science. He/She will evaluate the report submitted by the		
	student offering advice and suggesting improvements. A second version of the report will be submitted to the Faculty of		
	Sciences administration together with a form requesting its assessment.		

	Personalized attention	
Methodologies	Description	
Supervised projects	ervised projects Personalized attention will be available to the student from the academic and the professional supervisors. Personalized	
Summary	attention will also be a tool for the continuous assessment of the student.

Supervised projects	B1 B2 B3 B4 B5 B6	The company or institution will appoint a supervisor who will submit a final report,	50
	B7 B8 B9 B10 B11	addressed to the Dean of the Faculty of Science, wherein he/she will assess the	
	B12 B13 C1 C3 C4	quality of the work conducted by the student.	
	C5 C6 C7 C8		
Summary	B3 C1 C6 C7	In order to be evaluated and to attain academic recognition for the internship, the	50
		student must submit a report, addressed to the Dean of the Faculty of Science,	
		including a detailed summary of the different activities conducted. The report should	
		follow the guidelines including in section 5 of this teaching guide (Methodologies).	
		The academic supervisor will revise the report and will suggest changes and	
		corrections. The student will consider these corrections and will prepare a final version	
		of the report. This final version will be again submitted, this time to the Faculty of	
		Sciences administration together with a form requesting its evaluation.	

Assessment comments

The final grade will be based on the performance of the student during the internship and on the quality of the submitted report. Those students who do not complete the number of hours required at the company/institution or who do not submit the report on time will have a maximum qualification of 4,5 (fail). When the number of hours are not completed, the qualification will be proportional to the numbers of hours worked (and below 4,5). If there are compelling reasons, the student will be able to apply for a waiver to pass the course without completing the work period to the Dean of the Faculty of Sciences.

All aspects related to "academic dispensation", "dedication to study", "permanence" and "academic fraud" will be governed in accordance with the current academic regulations of the UDC.

	Sources of information
Basic	-O supervisor profesional e o académico ofrecerán consello ó estudante con respecto ás fontes de información
	(bibliográficas ou non) máis acaídas para as súas prácticas externas.

Other comments
Internships should be undertaken in the summer between the third and the
fourth years of the degree, once the semester is finished. Students who
do this will have more time during the second semester of their third
year, which is usually stressful. Green Campus Science Faculty ProgramTo contribute to achieve an immediate sustainable environment
and comply with point 6 of the "Environmental Declaration of the Faculty
of Sciences (2020)", the documentary works carried out in this subject:- They will be requested mostly in virtual format and
electronic form If it is printed: - Plastics will not be used
Double-sided prints will be made Recycled paper will be used Drafts will
be avoided.Incorporation of the gender perspective- As stated in the various applicable regulations for
university teaching, the gender perspective must be integrated into this
subject (using non-sexist language, using bibliography from authors of both
genders, encouraging the participation of male and female students in
classroom) Efforts will be made to identify and modify sexist biases
and attitudes, and the environment will be influenced to change them and

promote values of respect and equality.- Situations of gender discrimination should be identified,

and actions and measures will be proposed to correct them.
