

## Teaching Guide

Identifying Data					2024/25
Subject (*)	Drawing and Graphic Expression: Fashion Applications			Code	710G03006
Study programme	Grao en Xestión Industrial da Moda				
Descriptors					
Cycle	Period	Year	Type	Credits	
Graduate	2nd four-month period	First	Obligatory	6	
Language	Spanish				
Teaching method	Face-to-face				
Prerequisites					
Department	Proxectos Arquitectónicos, Urbanismo e Composición				
Coordinador	López Salas, Estefanía	E-mail	estefania.lsalas@udc.es		
Lecturers	López Salas, Estefanía	E-mail	estefania.lsalas@udc.es		
Web					
General description	The course aims to provide students with the ability to express their ideas and thinking by freehand drawing. This is a basic, needed skill for their future work in the fashion design industry. The course seeks to train the student with the fundamental skills to analyze and draw fashion figures by drawing freehand. In addition, students will acquire knowledge about different ways of graphic expression applied for fashion design industry.				

## Study programme competences / results

Code	Study programme competences / results
A4	To master the fundamentals of design in general and fashion design in particular, and to frame them in their historical context, both specific and general
A5	To develop the necessary skills to generate creative and innovative ideas
A18	To know the plastic and visual languages in the realm of fashion industry design, in order to understand and interpret the artistic creations of fashion garments
B1	That students demonstrate that they acquired and understood knowledge in a study area that originates from general secondary education and that can be found at a level that, though usually supported by advanced textbooks, also includes aspects implying knowledge from the avantgarde of its field of study
B2	That students know how to apply their knowledge to their job or vocation in a professional form, and have the competencies that are usually demonstrated through elaboration and advocacy of arguments and problem resolution within their field of study
B3	That students have the capacity to collect and interpret relevant data (normally within their field of study) in order to issue judgements that include a reflection upon relevant topics in the social, scientific or ethical realm
B4	That students may convey information, ideas, problems and solution to the public, both specialized and not
B5	That students develop those learning skills that are needed to undertake ulterior studies with a high degree of autonomy
B7	Capacity to analyse trends (critical thinking)
B8	Capacity to plan, organize and manage resources and operations
B9	Capacity to analyse, diagnose and take decisions
B10	Capacity to understand the social and historical-artistic dimension of fashion design and industry, as vehicle for creativity and the quest for new and effective solutions
C3	Using ICT in working contexts and lifelong learning.
C4	Acting as a respectful citizen according to democratic cultures and human rights and with a gender perspective.
C5	Understanding the importance of entrepreneurial culture and the useful means for enterprising people.
C6	Acquiring skills for healthy lifestyles, and healthy habits and routines.
C7	Developing the ability to work in interdisciplinary or transdisciplinary teams in order to offer proposals that can contribute to a sustainable environmental, economic, political and social development.
C8	Valuing the importance of research, innovation and technological development for the socioeconomic and cultural progress of society.
C9	Ability to manage times and resources: developing plans, prioritizing activities, identifying critical points, establishing goals and accomplishing them.

Learning outcomes			
Learning outcomes	Study programme competences / results		
Representation Systems: Knowledge of representation systems and procedures adapted and applied to fashion design at different stages.	A4 A5 A18	B1 B2 B3 B4 B5 B7 B8 B9 B10	C3 C5 C6 C8
Analysis of Shapes: Knowledge of the figure, the laws of perspective, the theory of lighting and shading and colour as well as ability to apply them to fashion drawing.	A4 A5	B1 B2 B4 B5 B8 B10	C3 C6 C7 C8 C9
Theory of Composition: Knowledge of different theories of composition and its application to graphic expression in fashion design.	A4 A18	B1 B2 B3 B4 B5 B10	C3 C6 C7 C8
Graphic Conception and Representation: Ability to think and represent the own ideas through drawing, to master figure proportions and the techniques of graphic expression, as well as final illustration techniques.	A4 A18	B2 B3 B4 B5 B7 B8 B9 B10	C3 C4 C5 C6 C7 C8 C9

Contents	
Topic	Sub-topic
1. Drawing and Fashion Drawing	1.1. Introduction to Drawing and Fashion Drawing 1.2. Fashion Figure Drawing fundamentals 1.3. Fashion Figure Movement 1.4. Drawing clothes on the Figure
2. Techniques for Graphic Expression in Fashion Drawing	2.1. Base and Composition 2.2. Shading in Fashion Illustration 2.3. Illustration of Human Body 2.4. Illustration of Fabrics and Clothes

Planning				
Methodologies / tests	Competencies / Results	Teaching hours (in-person & virtual)	Student?s personal work hours	Total hours
Introductory activities	A18 B1 B5 C6 C8 C9	1.5	0	1.5
Guest lecture / keynote speech	A4 A5 B10 C3 C4 C7	21	0	21

Workshop	A4 A5 A18 B3 B4 B7 B8 B9 B10 C3 C4 C5 C6 C7 C8 C9	21	50	71
Supervised projects	A4 A5 A18 B3 B4 B5 B7 B8 B9 B10 C3 C4 C5 C6 C7 C8	3	30	33
Seminar	A4 A5 A18 B2 B5 C5 C7	9	10	19
Practical test:	C9	2	0	2
Personalized attention		2.5	0	2.5
(*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.				

Methodologies	
Methodologies	Description
Introductory activities	Activities used at the beginning of any teaching-learning process to obtain information regarding student competences, interests and/or motivations in relation to specific learning outcomes, which educators may then incorporate in their planning to create more meaningful, effective learning experiences based on students' existing knowledge.
Guest lecture / keynote speech	Oral presentations where the theoretical and practical contents of the subject are explained by relying on the spoken word, audiovisual material and drawings to communicate its ideas, to transmit knowledge and encourage learning.
Workshop	In the weekly workshops the students apply the contents learned during the guest lectures and seminars through exercises proposed by the educators, who guide and supervise the process. Students must hand in the exercises developed in the workshops at the end of the scheduled time/ordinary class and/or at the end of the course, according to educators' instructions.
Supervised projects	Supervised projects are meant to help students work independently in their personal work hours under the supervision of educators. In the course, it will be proposed a general theme to be developed by students out of ordinary class time. Supervised projects are focused primarily on learning 'how to do things?' and on encouraging students to become responsible for their own learning. Students must hand in the supervised project according to educators' instructions. Scheduled time for voluntary personalized attention will enable the students to be supervised.
Seminar	Seminars will be conducted by professionals with proven expertise (theoretical and practical) in the field of fashion drawing and graphic expression.
Practical test:	An individual final test to assess if the student acquires the study programme competences and the learning aims of the subject.

Personalized attention	
Methodologies	Description
Workshop Supervised projects	Questions about the contents/exercises will be answered by the educators in the scheduled face-to-face time for personalized attention, as well as supervision of the individual projects. This personalized attention might be online through Microsoft Teams, if it is previously requested by the students.

Assessment			
Methodologies	Competencies / Results	Description	Qualification
Workshop	A4 A5 A18 B3 B4 B7 B8 B9 B10 C3 C4 C5 C6 C7 C8 C9	Assessment of the exercises developed in class (lectures, workshops and seminars) and/or in student's personal work hours. These exercises must show student's progress in the subject. It is required to hand in the exercises in due time (at least 80% of the total) according to instructions given by the educators. 15% - mid-term submissions + 15% - final project.	30

Supervised projects	A4 A5 A18 B3 B4 B5 B7 B8 B9 B10 C3 C4 C5 C6 C7 C8	This is a key part of the assessment along with the previous one. Supervised projects will be developed in student's personal work hours. To grade this individual project is required a minimum quality of the drawings. Moreover, students must hand in this project in due time to be graded. 10% - mid-term submissions + 20% - final project.	30
Practical test:	C9	The practical test (exam) is meant to assess the knowledge of the student at the end of the course. To pass this practical test, the grade must be, at least, 4 out of 10.	40

**Assessment comments**

<p>1. Second call</p> <p>The same criteria and requirements will be applied for grading in the first and second calls.</p> <p>2. Advance call</p> <p>Students that aim to take the Advance call must fulfil the same grading criteria.</p> <p>3. No Show mark</p> <p>Students who do not take the practical test (exam) will be recorded as No Show in the academic certificate.</p> <p>Students who take the practical test (exam), but do not hand in the workshop exercises and supervised project in due time, will be recorded as No Show in the academic certificate.</p> <p>4. Students with part-time dedication and those with an academic exemption for attendance</p> <p>Same criteria and requirements will be applied to students with full-time dedication, or part-time dedication. Those students with an academic exemption for attendance will be evaluated as follows: 100% Practical Test.</p> <p>To be considered in general</p> <p>To attend classes is required with active participation in lectures, workshops and seminars.</p> <p>Workshop exercises, supervised projects and the final practical exam (test) will only be valid for the present academic year (first or second chance, respectively), but they must be repeated in the following academic years in case the student does not pass the course.</p> <p>Fraudulent behavior in any of the methodologies subject to assessment will result in the grade of "Fail (0)" in the final assessment.</p> <p>All aspects related to "academic exemption for attendance", "dedication to the study", "permanency" and "fraudulent behaviour" will be determined by UDC academic regulations.</p>

**Other comments**

All the instructions set in this Teaching Guide Management also applied to international students or national students coming from other international and national universities. In order to help creating a sustainable and social atmosphere it is recommended to carry out a sustainable use of resources as well as the prevention of negative impacts in the natural environment. Moreover, it is suggested to take into account the importance of ethical principles regarding sustainability in personal and professional behaviour.
