General description	O obxectivo desta materia é ser capaz de deseñar e crear bases de datos, recuperar información almacenada nelas, e utilizar sistemas de xestión documental.				

Study programme competences / results

Code	Study programme competences / results
A1	CE1 - Know and understand the theoretical and methodological principles of information and documentation management to apply them in their professional activity
A8	CE8 - Master the different methods of representation of data, information and knowledge that ensure efficient recovery
A10	CE10 - Design computer tools for representation and retrieval of information from the user's perspective
A13	CE13 - Know and master the techniques and regulations for the creation and authentication, meeting, selection, organization, representation, preservation, recovery, access, dissemination and exchange, and evaluation of resources and information services
A19	CE19 - Determine and apply methods, measures and techniques designed to order, protect, preserve and restore data, information and documents of different nature
A20	CE20 - Master the bases to develop research activities using multidisciplinary methods and principles
A22	CE22 - Acquire computational skills and management of new ICT
B1	CB1 - Possess and understand knowledge that provides a basis or opportunity to be original in the development and / or application of ideas, often in a research context
B2	CB2 - Apply the knowledge acquired and their ability to solve problems in new or unfamiliar environments within broader (or multidisciplinary) contexts related to their area of study
B4	CB4 - Know how to communicate their conclusions -and the knowledge and ultimate reasons that sustain them- to specialized and non-specialized audiences in a clear and unambiguous way
B5	CB5 - Possess the learning skills that allow them to continue studying in a way that will be largely self-directed or autonomous
B6	CG1 - Capacity for cooperation, teamwork and collaborative learning
B7	CG2 - Capacity for reflection and critical reasoning
B8	CG3 - Capacity for planning, organization and management of resources, information and operations
B9	CG4 - Capacity for analysis, diagnosis and decision making
B10	CG5 - Ability to work in an international and global context
B11	CG6 - Ability to understand the importance, value and function of the Digital Information and Documentation Management in the current ICT society
C1	CT1 - Express correctly, both orally and in writing, in the official languages ??of the autonomous community
C2	CT2 - Use the basic tools of information and communication technologies (ICT) necessary for the exercise of their profession and for learning throughout their lives
C4	CT4 - Understand the importance of the entrepreneurial culture and know the means available to entrepreneurs
C6	CT6 - Develop the ability to work in interdisciplinary or transdisciplinary teams, to offer proposals that contribute to a sustainable environmental, economic, political and social development

C7	CT7 - Assess the importance of research, innovation and technological development in the socio-economic and cultural progress of society
C8	CT8 - Have the ability to manage time and resources: develop plans, prioritize activities, identify criticisms, establish deadlines and comply with them

Methodologies	
Methodologies	Description
Guest lecture / keynote speech	Consiste na exposición por parte do docente dos contidos da materia.
ICT practicals	Consiste en la realización durante el periodo docente de prácticas relacionadas cos contidos da materia.
Supervised projects	Consiste na realización autónoma dun traballo relacionados coa materia, que se entregará ao remate do período lectivo.
Mixed objective/subjective test	Consiste nun exame escrito con preguntas relacionadas coa teoría impartida nas sesións maxistras e nas prácticas a través de TIC

Personalized attention	
Methodologies	Description

Guest lecture / keynote speech ICT practicals Supervised projects Mixed objective/subjective test	Se estima que entre o alumnado haberá diferencias notables tanto en canto á súa familiarización con conceptos e termos informáticos, como en canto ás habilidades para o manexo de ferramentas informáticas. Por iso, prevese desenvolver unha atención personalizada para as prácticas a través de TIC e para os traballos tutelados. A atención personalizada desenvolverase de forma individual mediante a realización de titorías mediante ferramentas informáticas e Internet (correo electrónico, Moodle o Teams).

Assessment comments

PRIMEIRA OPORTUNIDADE

Para aprobar a materia é obrigatorio:

Unha NOTA MÍNIMA de 2 (sobre 4) nos traballos tutelados.

Unha NOTA MÍNIMA de 2 (sobre 4) na proba mixta.

De non obter a nota mínima nos traballos tutelados ou na proba mixta, a nota máxima global da materia non será superior a un 4,5.

Terá cualificación de NON PRESENTADO calquera estudante que non realice a proba mixta.

SEGUNDA OPORTUNIDADE

Poderán presentarse á segunda oportunidade ÚNICAMENTE aqueles/as estudantes que non superen a materia na primeira oportunidade. A recuperación de cada unha das partes farase da seguinte forma:

Traballos tutelados (40% da nota final): realización e presentación nas mesmas condicións que na primeira oportunidade.

Proba escrita teórica e práctica (60% da nota final): corresponde á proba mixta e á recuperación da nota dos estudos de casos.

Se un/unha estudante decide non realizar a recuperación de algunha das partes, conservará a nota obtida na primeira oportunidade nesa parte.

Os/as estudantes con nota inferior a 2 nos traballos tutelados na primeira oportunidade deberán recuperalos obrigatoriamente na segunda oportunidade para aprobar a materia.

Para aprobar a materia é obrigatorio obter unha nota mínima de 2 sobre 4 no traballo tutelado, e de 3 sobre 6 na proba mixta.

Terá cualificación de NON PRESENTADO calquera estudante que non opte á recuperación de ningunha dúas partes.

DISPENSA ACADÉMICA

Dado que a asistencia ás sesións presenciais non é obligatoria, aqueles/as estudantes con matrícula a tempo parcial e dispensa académica que lles exima da asistencia ás clases terán as mesmas condicións que o resto do alumnado.

OPORTUNIDADE ADIANTADA

Utilizaranse os criterios da segunda oportunidade

IMPLICACIÓNS DO PLAXIO

A realización fraudulenta das probas ou actividades de avaliación, unha vez comprobada, implicará directamente a cualificación de suspenso e a nota numérica de 0 na materia na oportunidade correspondente, mantendo as cualificacións das outras actividades para a seguinte oportunidade.

Sources of information

Basic	Dado o carácter esencialmente práctico desta asignatura, a bibliografía estará composta polos manuais das ferramentas informáticas descritas.
