General description	In this matter, the different complementary social security instruments that exist in Spain are analyzed, especially voluntary improvements in Social Security. It delves into the issues of competence between the Autonomous Communities and the State in matters of complementary social protection. Voluntary improvements in Social Security are also conceptualized and then collective bargaining is studied as a useful channel to articulate these improvements.

Methodologies	
Methodologies	Description
Oral presentation	Intervention inherent to the teaching-learning processes based on verbal exposition through which students and teachers interact in an orderly manner, proposing questions, making clarifications and presenting topics, works, concepts, facts or principles in a dynamic way.
Case study	Methodology where the subject is faced with the description of a specific situation that poses a problem that has to be understood, valued and solved by a group of people, through a process of discussion. The student faces a specific problem (case), which describes a real situation in professional life, and must be able to analyze a series of facts, related to a particular field of knowledge or action, to arrive at a reasoned decision to through a process of discussion in small working groups.
Multiple-choice questions	Objective test that consists of formulating a question in the form of a direct question or incomplete statement, and several answer options or alternatives that provide possible solutions, of which only one is valid.
Guest lecture / keynote speech	Oral presentation complemented with the use of audiovisual media and the introduction of some questions aimed at students, in order to transmit knowledge and facilitate learning.  The master class is also known as "master class", "expository method" or "master class".  The latter modality is usually reserved for a special type of lesson taught by a teacher on special occasions, with content that involves an original elaboration and based on the almost exclusive use of the word as a way of transmitting information to the public.

Personalized attention	
Methodologies	Description
Guest lecture / keynote speech	The personalized attention that is described in relation to these methodologies is conceived as moments of face-to-face work with the teacher, so they imply a mandatory participation for the students.
Multiple-choice questions	The way and the moment in which it will be developed will be indicated in relation to each activity throughout the course according to the work plan of the subject.

### Assessment comments

Students who have recognized part-time dedication, will be able to pass the subject through a theoretical practical exam, which will take place on the dates officially established by the Faculty of Labor Sciences. As for the requirements of the second call will be the same as in the first.

In accordance

with article 11, section 4 b), of the UDC Student Disciplinary Regulations, students who commit fraud or plagiarism will have their grade suspended in the session in which the offense is committed and with respect to the matter in which it was committed. The student will be graded as "failed" (numerical grade 0) in the corresponding call for the academic year, whether the offense is committed on the first opportunity or on the second. To do this, he will proceed to modify his qualification in the first opportunity report if necessary.
