## Study programme competences

| Code | Study programme competences                                                                                                                                                                                            |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A1   | Coñecemento das realidades interdisciplinares da Química e do Medio Ambiente, dos temas punteiros nestas disciplinas e das perspectivas de futuro.                                                                     |
| A6   | Coñecemento do comportamento de diferentes especies químicas e dos procesos aos que poden estar sometidas unha vez liberadas no medio ambiente, incluíndo as súas relacións entre distintos compartimentos ambientais. |
| A10  | Relacionar a presenza de especies químicas no medio natural cos conceptos de toxicidade e biodisponibilidade.                                                                                                          |
| A13  | Comprender os procesos de bioacumulación e as técnicas de biomonitorización e biomarcaxe.                                                                                                                              |
| B1   | Posuír e comprender coñecementos que acheguen unha base ou oportunidade de ser orixinais no desenvolvemento e/ou aplicación de ideas, a miúdo nun contexto de investigación.                                           |
| B5   | Que os estudantes posúan as habilidades de aprendizaxe que lles permitan continuar estudando dun modo que haberá de ser en gran medida autodirixido ou autónomo.                                                       |
| B8   | Comprender, a un nivel especializado, as consecuencias do comportamento humano na contorna ambiental.                                                                                                                  |
| C6   | Utilizar as ferramentas básicas das tecnoloxías da información e as comunicacións (TIC) necesarias para o exercicio da súa profesión e para a aprendizaxe ao longo da súa vida.                                        |

## Learning outcomes
