| General description | This course complements the conten | nts acquired in I | Plant Physiology | I and II, from an appl | ied perspective. Will be |
| | addressed in different subjects, agricultural, experimental and industrial processes, where the theoretical concepts of Plan | | | | |
| | Physiology are implemented. | | | | |

| | Study programme competences |
|------|--|
| Code | Study programme competences |
| A10 | Avaliar actividades metabólicas. |
| A18 | Levar a cabo estudos de produción e mellora animal e vexetal. |
| A21 | Deseñar modelos de procesos biolóxicos. |
| A26 | Deseñar experimentos, obter información e interpretar os resultados. |
| A29 | Impartir coñecementos de Bioloxía. |
| A30 | Manexar adecuadamente instrumentación científica. |
| A31 | Desenvolverse con seguridade nun laboratorio. |
| B2 | Resolver problemas de forma efectiva. |
| В3 | Aplicar un pensamento crítico, lóxico e creativo. |
| B4 | Traballar de forma autónoma con iniciativa. |
| B5 | Traballar en colaboración. |
| В6 | Organizar e planificar o traballo. |
| B8 | Sintetizar a información. |
| B9 | Formarse unha opinión propia. |
| B10 | Exercer a crítica científica. |
| B11 | Debater en público. |
| B12 | Adaptarse a novas situacións. |
| B13 | Comportarse con ética e responsabilidade social como cidadán e como profesional. |

| | Methodologies |
|----------------------|---|
| Methodologies | Description |
| Guest lecture / | Oral presentation of the topic supplemented with PowerPoint presentations, videos and / or diagrams on the board. During the |
| keynote speech | development of the topic questions will be inserted students to reflect on and answer them orally, prior to explanation by the |
| | teacher. |
| Seminar | Technical working group aims intensive study of a topic. It will take place in very small groups of 10-15 students. It will include |
| | a final presentation and discussion |
| Mixed | Consist of two parts, in which the knowledge acquired theoretical and practical point is evaluated. The mixed evidence may |
| objective/subjective | include essay questions, multiple choice or problems |
| test | |
| Laboratory practice | Methodology that allows estudantes effectively learn through conducting practical activities, such as demonstrations, |
| | exercises, experiments and research. |

| | Personalized attention |
|---------------|--|
| Methodologies | Description |
| Seminar | Students, in groups of 10, will meet with the teacher to prepare the seminar work. In addition, tutorial sessions, each student |
| | will discuss with the teacher the progress of the work and all the doubts that may arise. |
| | For those students with official half-time dedication, the tutorial sessions might be replaced by a written work, if the student |
| | requires it. |
| | |

| | | Assessment | |
|----------------------|---------------------|--|---------------|
| Methodologies | Competencies | Description | Qualification |
| Mixed | A10 A18 B2 B6 B8 | Examination of the theoretical and practical knowledge. | 60 |
| objective/subjective | | 40% theorical. | |
| test | | 20% practical. | |
| Seminar | B4 B5 B6 B9 B10 B11 | Activities during the seminars will be evaluated on an ongoing basis by the teacher. | 40 |
| | B12 B13 | | |

Assessment comments

The qualification assessment will have two parts:

- 1) Theoretical part of the course, including two methodologies: "Seminario" ("seminar"), and the theoretical part of "proba mixta" (final exam).
- 2) Practical part of "proba mixta" (final exam).

To get a pass a student has to get a minimum of 4 points out of 10 in the Theoretical part of the course and a minimum of 4 points out of 10 in the Practical part. Moreover, a minimum of 4 points out of 10 has to be got in in the theoretical part of the "proba mixta" and also in the practical part of the "proba mixta". Moreover, in order to get the pass, the average/mean of the different parts and methodologies has to be at least 5 points out of 10. Attendance to practicals is compulsory. If a student does not attend to one or two sessions of the practicals, he/she will have a penalty of one and two points, respectively, to be substracted from the score of the ?proba mixta?. If the student does not attend to three or more sessions of the practicals, he/she will get a fail as the final score in the course.

The students that do not carry out the "proba mixta" will be qualified as "NO PRESENTADO". For those students with official half-time dedication, the tutorial sessions might be replaced by a written work, if the student requires it.
