General description	The Faculty of Science has been succesfully running an internship program since 2005, with an average participation of 50-70 students per year. Every year, our students can conduct internships in private companies or institutions equivalent to 6 or 12 ECTS credits, in exchange for 1 or 2 optional courses. In order to participate in the internships program, students must: i) Be enrolled in one of the degrees run by the Faculty of Science. ii) Have passed courses comprising 120 ECTS credits, including all basic courses. iii) Participate in the selection process that may be established. Students already having a contractual relationship with the private company or institution offering the internship are not eligible, unless they are granted special permission according to the University of A Coruña (UDC) regulations. In order to be academically valid, internships must: a) Be offered through or approved by the Faculty of Science. Positions offered by other institutions (Social Council UDC, UDC Foundation, etc.) must abide by UDC regulations, specially those ensuring equal opportunity and no discrimination. b) Be filled in a fair process based on merit. c) Be conducted under the supervision of a qualified professional (BSc, MSc or PhD), preferably in a related field. d) Obtain a positive report issued by the ?Comisión de Docencia e Validacións? about the conducted activity, based on the report submitted by the student and the assessment report by the academic and professional supervisors (Annexes III and IV). The assessment process, prior to the decision of the ?Comisión de Docencia e Validacións?, will follow all UDC regulations.			

Study programme competences / results	
Code	Study programme competences / results
B1	Aprender a aprender.
B2	Resolver problemas de forma efectiva.
B3	Aplicar un pensamento crítico, lóxico e creativo.

B4	Traballar de forma autónoma con iniciativa.
B5	Traballar en colaboración.
B6	Organizar e planificar o traballo.
B7	Comunicarse de maneira efectiva nunha contorna de traballo.
B8	Sintetizar a información.
B9	Formarse unha opinión propia.
B10	Exercer a crítica científica.
B11	Debater en público.
B12	Adaptarse a novas situacións.
B13	Comportarse con ética e responsabilidade social como cidadán e como profesional.
C1	Expresarse correctamente, tanto de forma oral coma escrita, nas linguas oficiais da comunidade autónoma.
C3	Utilizar as ferramentas básicas das tecnoloxías da información e as comunicacións (TIC) necesarias para o exercicio da súa profesión e para a aprendizaxe ao longo da súa vida.
C4	Desenvolverse para o exercicio dunha cidadanía aberta, culta, crítica, comprometida, democrática e solidaria, capaz de analizar a realidade, diagnosticar problemas, formular e implantar solucións baseadas no coñecemento e orientadas ao ben común.
C5	Entender a importancia da cultura emprendedora e coñecer os medios ao alcance das persoas emprendedoras.
C6	Valorar criticamente o coñecemento, a tecnoloxía e a información dispoñible para resolver os problemas cos que deben enfrontarse.
C7	Asumir como profesional e cidadán a importancia da aprendizaxe ao longo da vida.
C8	Valorar a importancia que ten a investigación, a innovación e o desenvolvemento tecnolóxico no avance socioeconómico e cultural da sociedade.

Learning outcomes			
Learning outcomes	Study programme competences / results		
By the end of the internship, students will be able to: -Understand the professional contexts in which biologists develop their career -Apply the skills the students have developed during the degree in a professional environment.		B1 B2 B3 B4 B5 B6 B7 B8 B9 B10 B11 B12 B13	C1 C3 C4 C5 C6 C7 C8

Methodologies	
Methodologies	**Description**
Summary	The report submitted by the student will include the following parts, and in the following order: 1. CONTENTS 1.1 This section must include a list of all the documents of the report 2. DETAILS OF THE STUDENT 2.1 Brief information about the student, including surnames, name, ID number (DNI for Spanish students), address, telephone number and e-mail 3. DETAILS OF THE COMPANY/INSTITUTION 3.1 Brief information about the company/institution, including name, address, activities, number of employees, etc...) 4. SUMMARY OF THE TASKS CONDUCTED DURING THE INTERNSHIP 4.1 Summary of the work done by the student during the internship 5. DESCRIPTION OF THE ACTIVITIES OF THE STUDENT 5.1 Aims of the internship. 5.2 Tasks conducted. Describe the experimental and theoretical basis of the student?s activities during the internship. If necessary, the student must consider the need to avoid disclosure of confidential information. 5.3 Schedule. Time and duration of the activities conducted. Information about the company/institution sections or units in which the student performed his/her tasks. 5.4 Courses or seminars taken by the student that are related to the internship. Specific knowledge acquired by the student during the internship (use of computer tools, particular skills, etc...) 5.5 Integration of the student in the section/unit of the company/institution. Include an analysis of the student?s working relationship with the staff of the company/institution. 6. CONCLUSIONS 6.1 Assessment of the usefulness of the skills acquired during the degree and the tasks conducted in the internship. 6.2 Personal evaluation of the skills acquired during the internship. 6.3 Declaration of responsibility signed by the student (following the form included as Annex I).
Supervised projects	The company or institution will appoint a supervisor (BSc, MSc or PhD) with the following functions: 1. Submit to the Faculty of Science a document including a brief description of the tasks to be conducted by the student. In addition to this, the supervisor will list in the document the specific skills the student will need to complete the tasks during the internship. Finally, the learning outcomes for the student should also be included in the document. 2. Guide the student during the internship. 3. Write a final report, addressed to the Dean of the Faculty of Science, assessing the quality of the student?s work. The student will also have an academic supervisor at the Faculty of Science. He/She will evaluate the report submitted by the student offering advice and suggesting improvements. A second version of the report will be submitted to the ?Negociado de alumnos? (student?s office) together with a form requesting its assessment.

Personalized attention	
Methodologies	Description
Supervised projects Summary	Personalized attention will be available to the student from the academic and the professional supervisors. Personalized attention will also be a tool for the continuous assessment of the student.

Assessment			
Methodologies	Competencies / Results	Description	Qualification
Supervised projects	B1 B2 B3 B4 B5 B6 B7 B8 B9 B10 B11 B12 B13 C1 C3 C4 C5 C6 C7 C8	The company or institution will appoint a supervisor who will submit a final report, addressed to the Dean of the Faculty of Science, wherein he/she will assess the quality of the work conducted by the student.	50
Summary	B3 C1 C6 C7	In order to be evaluated and to attain academic recognition for the internship, the student must submit a report, addressed to the Dean of the Faculty of Science, including a detailed summary of the different activities conducted. The report should follow the guidelines including in section 5 of this teaching guide (Methodologies). The academic supervisor will revise the report and will suggest changes and corrections (in writting). The student will consider these corrections and will prepare a final version of the report. This final version will be again submitted, this time to the Negociado de alumnos (student's office) together with a form requesting its evaluation. The student's report will be assessed by the Comisión de Docencia e Validacións of the Faculty of Science, who will consider the evaluation by the professional supervisor (appointed by the company/institution) and the recommendations of the academic supervisor.	50

Assessment comments
The final grade will be based on the performance of the student during the internship and on the quality of report submitted.

Other comments
Internships should be undertaken in the summer between the third and the fourth years of the degree, once the semester is finished. Students who do this will have more time during the second semester of their third year, which is usually stressful.
