Personalized attention		10	0	10
(*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.				

Methodologies	
Methodologies	Description
Guest lecture / keynote speech	Las sesiones magistrales se dedicarán a exponer y explicar en profundidad la tributación de las operaciones financieras e instrumentos financieros, de forma clara, práctica y sencilla, sobre materiales actualizados que el profesor pondrá a disposición de los alumnos..
Problem solving	Se plantearán y resolverán, con la participación activa de los alumnos, una selección de supuestos que figuran en los materiales preparados por el profesor para los alumnos.

Multiple-choice questions	El alumno podrá aprobar la asignatura mediante la superación de dos pruebas tipo test que serán liberatorias, siempre que se obtenga un 60 por ciento de aciertos (no se descontará ninguna puntuación por las preguntas erróneamente contestadas). En el examen final, el alumno sólo tendrá que realizar la prueba que tenga pendiente. En este sistema de evaluación, el alumno podrá contar en el examen con los materiales que considere precisos.
---------------------------	---

Personalized attention

Methodologies	Description
Guest lecture / keynote speech	The student will be able to consult not only his doubts about the matters explained in the classroom, but also to receive orientations related to the different subjects studied in the subject. During the course, the teacher will try to keep the students informed in class and through e-mail or other means of communication. The attention measures provided to students enrolled in full-time dedication will also apply to part-time students. In the latter case, it will seek to fit the teaching performance with the available time of this type of students.

Assessment

Methodologies	Competencies	Description	Qualification
Guest lecture / keynote speech	A12 A15 A31 A34 A35 B2 B5 B6 B8 B12	The attendance and active participation in class is valued positively. Every two faults will be deducted one percentage point out of the ten that this activity would contribute. To pass the subject it is necessary to attend at least 30% of the classes in which teaching has been taught. 1	10
Problem solving	A12 A15 A31 A34 A35 B2 B3 B4 B9 B17 B18 B24 B25	The students will carry out a supervised work on current topics directly related to the subject.	20
Multiple-choice questions	A12 A15 A31 A34 A35 B2 B15 B23 B26 B27 B28 C3 C4 C6 C7	The student can pass the subject by passing a test type test, provided that you get a 60 percent success (no score will be deducted for the questions wrongly answered). In the final exam, the student will only have to perform the test that is pending.	70
Others			

Assessment comments

In the continuous assessment of the subject, it will be an indispensable requirement to evaluate the regular attendance, with active participation and progression in the domain of the subject, to the sessions and activities organized by the coordinators of the subject and the Master. The qualification of "not presented" will be applied to students who only participate in evaluation activities that they weigh less than 20% in the final grade, regardless of the score obtained. The evaluation system will remain unchanged for both the first and the second. The evaluation criteria for students with part-time work and the academic exemption of the obligation to attend are the same as in the first and second opportunity unless they decide to establish different criteria for these students.
