General description	The main objective of this course is to provide an analytical framework to deal with the study of financial institutions, financial instruments and financial markets. Furthermore, the role of central banks in the implementation of monetary policy, in general, and financial stability in particular is also addressed. A series of basic concepts are introduced and developed in order to get a better understanding of processes and elements such as the determination of the price of assets, the structure and functioning of financial markets and the role of monetary policy in the economy			
Contingency plan	<p>1. Modifications to the contents There are no modifications in the contents</p> <p>2. Methodologies *Teaching methodologies that are maintained No changes in teaching methodologies</p> <p>*Teaching methodologies that are modified No teaching methodology is modified</p> <p>3. Mechanisms for personalized attention to students The personalized attention activity will be carried out through email, Moodle and Teams during the office hours of the subject teachers and attending to the individual requests of the students.</p> <p>4. Modifications in the evaluation No modifications are applied to the evaluation initially established, maintaining the same criteria *Evaluation observations:</p> <p>5. Modifications to the bibliography or webgraphy No changes are made</p>			

Study programme competences	
Code	Study programme competences
A1	CE1- Contribuír á boa xestión da asignación de recursos tanto no ámbito privado como no público.
A2	CE2-Identificar e anticipar problemas económicos relevantes en relación coa asignación de recursos en xeral, tanto no ámbito privado como no público.
A3	CE3-Aportar racionalidade á análise e á descripción de calquera aspecto da realidade económica.
A4	CE4-Avaliar consecuencias e distintas alternativas de acción e seleccionar as mellores, dados os obxectivos.
A5	CE5-Emitir informes de asesoramento sobre situación concretas da economía (internacional, nacional ou rexional) ou de sectores da mesma.
A6	CE6-Redactar proxectos de xestión económica a nivel internacional, nacional ou rexional. Integrarse na xestión empresarial.

A7	CE7-Identificar as fontes de información económica relevante e o seu contido.
A8	CE8-Entender as institucións económicas como resultado e aplicación de representacións teóricas ou formais acerca de cómo funciona a economía.
A9	CE9-Derivar dos datos información relevante imposible de recoñecer por non profesionais.
A10	CE10-Usar habitualmente a tecnoloxía da información e as comunicación en todo a seu desempeño profesional.
A11	CE11Leer e comunicarse no ámbito profesional en máis dun idioma, en especial en inglés.
A12	CE12-Aplicar á análise dos problemas criterios profesionais baseados no manexo de instrumentos técnicos.
A13	CE13-Comunicarse con fluidez no seu contorno e traballar en equipo.
B1	CB1 - Que os estudiantes demostren posuir e comprender coñecementos nun área de estudio que parte da base da educación secundaria xeral, e que soe encontrar nun nivel que, ainda que se apoia en libros de texto avanzados, inclue tamén algúns aspectos que implican coñecementos procedentes da vanguarda do seu campo de estudio.
B2	CB2 - Que os estudiantes saiban aplicar os seus coñecementos ó seu traballo ou vocación dun xeito profesional e posúan as competencias que se demostran por medio da elaboración e defensa de argumentos e a resolución de problemas dentro da su entorna de traballo.
B3	CB3 - Que os estudiantes teñan a capacidade de reunir e interpretar datos relevantes (normalmente dentro da su área de estudio) para emitir xuízos que inclúan unha reflexión sobre temas relevantes de índole social, científica ou ética
B4	CB4 - Que os estudiantes poidan transmitir información, ideas, problemas e solucións a un público tanto especializado como non especializado
B5	CB5 - Que os estudiantes desenvolvesen aquelas habilidades de aprendizaxe necesarias para emprender estudos posteriores cun alto grao de autonomía
B6	CG1- Que os estudiantes formados se convertan en profesionais capaces de analizar, reflexionar e intervir sobre os diferentes elementos que constitúen un sistema económico
B7	CG2 - Que os estudiantes coñezan o funcionamento e as consecuencias dos sistemas económicos, as distintas alternativas de asignación de recursos, acumulación de riqueza e distribución da renda e esteán en condicións de contribuír ao seu bo funcionamento e mellora
B8	CG3 -Que os estudiantes sexan capaces de identificar e anticipar os problemas económicos relevantes, identificar alternativas de resolución, seleccionar as más axeitadas e avaliar os resultados aos que conduce.
B9	CG4 -Que os estudiantes respecten os dereitos fundamentais e de igualdade de oportunidades, non discriminación e accesibilidade universal das persoas con minusvalidez.
C1	CT1-Expresarse correctamente, tanto de forma oral coma escrita, nas linguas oficiais da comunidade autónoma.
C4	CT2-Desenvolverse para o exercicio dunha cidadanía aberta, culta, crítica, comprometida, democrática e solidaria, capaz de analizar a realidade, diagnosticar problemas, formular e implantar solucións baseadas no coñecemento e orientadas ao ben común.
C5	CT3-Entender a importancia da cultura emprendedora e coñecer os medios ao alcance das persoas emprendedoras.
C6	CT4-Valorar criticamente o coñecemento, a tecnoloxía e a información disponible para resolver os problemas cos que deben enfrentarse.
C7	CT5-Asumir como profesional e cidadán a importancia da aprendizaxe ao longo da vida.
C8	CT6-Valorar a importancia que ten a investigación, a innovación e o desenvolvemento tecnolóxico no avance socioeconómico e cultural da sociedade.

Learning outcomes		
Learning outcomes	Study programme competences	
- To demonstrate the crucial role played by a financial system in a modern economy	A2 A3 A4 A8 A11 A12	C1

-To analyze the main characteristics (liquidity, profitability and risk) of the financial instruments	A2 A3 A4 A11 A12		C1
- To assess the influence of the main determinants of financial assets prices	A2 A3 A4 A5 A7 A11		C1
- To know the basic principles that should guide the management of banks	A1 A2 A11 A12		C1 C5 C6
-To justify the need for regulation and supervision of financial systems	A2 A11 A12		C1
-To know the main channels of influence of monetary policy on the price of the assets traded in the financial markets.	A2 A11 A12		C1
- To be aware of the key role of financial intermediaries in the transmission mechanism of monetary policy	A2 A11 A12		C1
- To solve practical cases which require the application of elementary principles of valuation of assets	A2 A11 A12		C1
- To use information and relevant data in order to investigate the reality of financial markets and institutions	A10 A11 A12		C1
- To diagnose the pace of the monetary policy and the degree of financial pressure facing the private sector of the economy.	A2 A11		C1
- To handle documentary sources in English	A11		
-To show interest in issues related to the fields of study of the monetary policy and financial system		B6 B9 C8	C4 C7
-To participate actively in the discussion of the topics addressed in the course syllabus		B4 B5	C1 C4
-To cooperate actively in the realization of works using computer	A6 A13	B8	C4
-To appreciate the importance of ethical considerations in the development of the professional activity in the financial sector		B7	C4 C5
- To evaluate in a critical way the main problems and challenges faced by monetary policy in the euro area	A1 A2 A9	B1 B2 B3	C1

(\*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

Methodologies	
Methodologies	Description
Guest lecture / keynote speech	Oral presentation by the teacher, complemented by the use of audiovisual media and the introduction of some questions to students, in order to transmit knowledge and facilitate learning.
Problem solving	Solving concrete practical cases requiring the application of knowledge previously addressed in the classroom.
Case study	Description of a specific situation that poses a problem that must be understood, assessed and solved by the student through a process of discussion directed by the teacher.
Directed discussion	Group dynamics technique in which group members discuss free, informal and spontaneous way on an issue, although they can be coordinated by a moderator.
Mixed objective/subjective test	Written proof used with the aim of evaluating student knowledge, skills and abilities.

Personalized attention	
Methodologies	Description
Guest lecture / keynote speech	Addressing and resolving doubts concerning the contents explained in the keynote session or arising in the process of solving practical cases and discussion of cases. small group tutorials were employed .
Case study	
Problem solving	Individualized tuition will be provided through email, Teams and Moodle.

Assessment			
Methodologies	Competencies	Description	Qualification
Case study	A3 A4 A5 A6 A9 A10 A11 A12 A13	Resolution of practical cases involving the application of principles and concepts previously addressed in the classroom	40

Mixed objective/subjective test	A3 B8 C1	The final exam will consist of a single written proof made of theoretical and practical questions in order to assess the level of knowledge of the student on the contents of the syllabus and developed in the classroom  The theoretical part of the exam may include multiple choice questions.  In the practical part it will particularly valued the ability to apply the concepts and principles discussed in the classroom to solve practical cases.  The score of the final exam is set for a maximum of 7 points. .	40
Problem solving	A2 A5 A6 A7 B2 B1 B3 B4 B5 B6	Solving exercises in which students will have to apply the theory to solve specific problems and multiple choice tests.	20
Others			

#### Assessment comments

Mixed test: In the answer to the questions in the theoretical block that require the development of the answer in writing, the students' analysis and synthesis capabilities will be particularly valued in addition to the knowledge. The practical part will particularly assess the ability to apply the concepts and principles addressed in the theoretical part to solve case studies. The mixed test score is set over a maximum of 4 points. Early opportunity and second chance: At the second opportunity students who wish will be able to recover the part of the continuous evaluation corresponding to the objective tests (tests and problems) carried out in the first quarter. This corresponds to a maximum of 20% of the final rating. This same possibility will be given to students of the anticipated opportunity.

The not taken qualification is for the student when they only participate in assessment activities that have a weighting of less than 20% in the final grade, regardless of the grade achieved.

Students with recognition of part-time dedication and academic exemption exemption: At the first and second chance the evaluation criteria will be governed by the conduct of a mixed test with a weight of 100% on the qualification. This test will include theoretical and practical issues and the student will have to demonstrate that he/she has achieved the competencies and learning outcomes of the subject.
