Methodologies	
Methodologies	Description
Guest lecture / keynote speech	The teacher presents the main concepts that students need to solve the accounting problems covered in the course.
Directed discussion	Preparation and discussion in the classroom of the topics proposed by the teacher.
Workshop	Work in groups to solve exercises and cases, both in the classroom and out of the classroom. The teacher will guide this work.
Mixed objective/subjective test	Continuous evaluation tests and final tests. The tests, both continuous evaluation and final exams, can be written, oral, or in Moodle. The contents related to the subject can be raised in theoretical or practical terms or as a theoretical-practical combination.

Personalized attention	
Methodologies	Description
Workshop Directed discussion	<p>The accounting problems proposed to be solved in the classroom are designed to help students in understanding the accounting concepts and in becoming familiar with the accounting technique. With this aim, students will be guided by the teacher, so that they can solve, on their own, the proposed cases. Additionally, individual and group tutorials will be aimed to support the rest of the teaching and to track the work carried out by students outside the classroom.</p> <p>For students with recognition of part-time dedication and academic exemption from attendance, a specific tutoring calendar compatible with their dedication will be agreed at the beginning of the course. In order to fix this timetable, these students must contact the teacher in the first ten days of the semester in which the subject is taught.</p> <p>The tutorials will be in TEAMS.</p>

Assessment			
Methodologies	Competencies / Results	Description	Qualification
Mixed objective/subjective test	A1 A2 A3 A4 A5 A6 B4 B8 B10 C4 C5 C6 C7 C8	First opportunity: 50% continuous evaluation tests and 50% final exam Second opportunity: 100% final exam	100

Assessment comments

All tests (continuous evaluation tests and final exams) can be held in Moodle.

## A) EVALUATION

### RULES

1. Conditions for the final exam.

Access to the exam classroom with any device that allows communication with the outside and/or storage is prohibited, except for not face-to-face exams, in which case students will be told what type of devices they can use.

2. Student Identification. The student must prove her/his identity in accordance with current regulations.

## B) QUALIFICATION

1) Absent qualification. This

qualification will be assigned, exclusively, to those students that had participated in evaluation activities with a weighting lower than 20% of the final qualification, independently of the mark obtained in these

activities. 2) Students with recognition of part-time dedication and academic exemption from attendance, Except for the final exams, which dates are set by the centre, a specific calendar, compatible with their dedication, will be agreed at the beginning of the course. In order to fix this timetable, these students must contact the teacher in the first ten days of the semester in which the subject is taught. The tests will have the same characteristics as for full-time students.

c) EVALUATION OPPORTUNITIES  
 1. First opportunity: The evaluation criteria set out above in this section will apply.  
 2. Second opportunity: The evaluation criteria set out above in this section will apply.  
 3. Early opportunity ("oportunidade adiantada"): In this opportunity, and only in this case, a mixed test will be carried out aimed at evaluating all the competences and contents of the subject. The test scoring criteria will be announced at the time of the test and will be provided together with the test statement. Tests not performed score as zero. Those carried out in fraud (impersonation of a person, copy, access to the exam from an unauthorized place and without prior permission ...) suppose the score of zero points in the final mark.

### Recommendations

#### Subjects that it is recommended to have taken before

Financial Operations Analysis/611G02004

Business Economics: Management and Organisation/611G02008

#### Subjects that are recommended to be taken simultaneously

#### Subjects that continue the syllabus

Financial Accounting II/611G02018

### Other comments

- The importance of ethical principles related to sustainability values in personal and professional behaviours should be taken into account.- Work will be done to identify and modify prejudices and sexist attitudes and to influence the environment to modify them and promote values of respect and equality.- The full integration of students who, for physical, sensory, psychic or socio-cultural reasons, experience difficulties for adequate, equal and beneficial access to university life will be facilitated.

(\*)The teaching guide is the document in which the URV publishes the information about all its courses. It is a public document and cannot be modified. Only in exceptional cases can it be revised by the competent agent or duly revised so that it is in line with current legislation.
