| General description | The subject aim is that students develop appropriate skills for financial evaluation of investment projects. | | | | | |

| | Study programme competences |
|------|--|
| Code | Study programme competences |
| A1 | Manage an enterprise or small organization, understanding their competitive and institutional position and identifying their strengths and |
| | weaknesses |
| A2 | Integrate in any functional area of micro-firms or SMEs and perform fluently any management task commissioned |
| А3 | Evaluate and foreseeing, from relevant data, the development of a company. |
| A4 | Elaborate advisory reports on specific situations of companies and markets |
| A5 | Write projects about specific functional areas (e.g. management, marketing, financial) of the company |
| A6 | Identify the relevant sources of economic information and to interpret the content. |
| A8 | Derive, based on from basic information, relevant data unrecognizable by non-professionals. |
| A9 | Use frequently the information and communication technology (ICT) throughout their professional activity. |
| A10 | Read and communicate in a professional environment at a basic level in more than one language, particularly in English |
| A11 | To analyze the problems of the firm based on management technical tools and professional criteria |
| B1 | CB1-The students must demonstrate knowledge and understanding in a field of study that part of the basis of general secondary |
| | education, although it is supported by advanced textbooks, and also includes some aspects that imply knowledge of the forefront of their |
| | field of study |
| B2 | CB2 - The students can apply their knowledge to their work or vocation in a professional way and have competences typically demostrate |
| | by means of the elaboration and defense of arguments and solving problems within their area of work |
| В3 | CB3- The students have the ability to gather and interpret relevant data (usually within their field of study) to issue evaluations that include |
| | reflection on relevant social, scientific or ethical |
| B4 | CB4-Communicate information, ideas, problems and solutions to an audience both skilled and unskilled |
| B5 | CB5-Develop skills needed to undertake further studies learning with a high degree of autonomy |
| В6 | CG1-Perform duties of management, advice and evaluation in business organizations |
| B7 | CG2-Know how to use the concepts and techniques used in the various functional areas of the company and understand the relationships |
| | between them and with the overall objectives of the organization |
| B8 | CG3- Know how to make decisions, and, in general, assume leadership roles. |
| B9 | CG4-Learn to identify and anticipate opportunities, allocate resources, organize information, select and motivate people, make decisions |
| | under conditions of - uncertainty, achieve the proposed objectives and evaluate results |

| B10 | CG5-Respect the fundamental and equal rights for men and women, promoting respect of human rights and the principles of equal | | |
|-----|--|--|--|
| | opportunities, non-discrimination and universal accessibility for people with disabilities. | | |
| C1 | C1 Express correctly, both orally and in writing, in the official languages of the autonomous region | | |
| C4 | To be trained for the exercise of citizenship open, educated, critical, committed, democratic, capable of analyzing reality and diagnose | | |
| | problems, formulate and implement knowledge-based solutions oriented to the common good | | |
| C5 | Understand the importance of entrepreneurial culture and know the means and resources available to entrepreneurs | | |
| C6 | Assess critically the knowledge, technology and information available to solve the problems and take valuable decisions | | |
| C7 | Assume as professionals and citizens the importance of learning throughout life. | | |
| C8 | Assess the importance of research, innovation and technological development in the economic and cultural progress of society. | | |

| Methodologies | | | | |
|--|--|--|--|--|
| Methodologies Description | | | | |
| Presentation of the general aspects of the subject. | | | | |
| Real or realistic investment projects will be developed and analyzed. Projects developed by students will be dealth with, in addition to those raised by the teaching staff. | | | | |
| Development and application of analytical models using spreadsheet and / or specific software | | | | |
| Written examination of theoretical-practical content | | | | |
| | | | | |
| | | | | |

| | Book and the destruction | | |
|----------------------|--|--|--|
| | Personalized attention | | |
| Methodologies | Methodologies Description | | |
| Mixed | Practical activities will be developed in lectures and as an extension of them, which requires, by its very nature, teacher | | |
| objective/subjective | supervision. 4 hours of seminars (small group tutoring) will be scheduled, where individual questions in which may address. In | | |
| test | addition, students have access to the tutoring schedule published by the Faculty for personalized attention. | | |
| Guest lecture / | | | |
| keynote speech | | | |
| ICT practicals | | | |
| Case study | | | |

| | | Assessment | |
|---------------|--------------|-------------|---------------|
| Methodologies | Competencies | Description | Qualification |

| Mixed | A3 A4 A8 A10 A11 B2 | With an essentially practical focus, pretends to measure the general quality of the | 50 |
|----------------------|---------------------|--|----|
| objective/subjective | B3 B5 B6 B7 B8 C1 | learning, the skills and competencies developed by the students. | |
| test | C6 | | |
| ICT practicals | A1 A2 A3 A4 A5 A6 | ICTs have in this subject an instrumental role. Accordingly, while these skills will not | 0 |
| | A8 A9 A10 A11 B2 B3 | be assessed directly, some evaluated problem solving might make use of IT tools. | |
| | B4 B5 B6 B7 B8 B9 | | |
| | C1 C5 C6 C7 | | |
| Case study | A1 A2 A3 A4 A5 A6 | The capacity to frame and solve models for investment project evaluation will be | 50 |
| | A8 A10 A11 B2 B3 B4 | valued. | |
| | B5 B6 B7 B8 B9 C1 | | |
| | C6 C7 | | |

Assessment comments

The evaluation criteria are applied with complete uniformity in the "opportunities" of June and July, and also for part-time srudents. The set of practical activities developed in classw eighs 50% in the evaluation. These activities embedded in the learning process developed in the classes, so they can only be assessed when tasks are performed according to their schedule for the corresponding group. In the evaluation of continuous assessment, the worst (or missed mark) will be skipped.

According to the applicable regulations, the exams will be performed at official dates, except in cases expressly considered in academic regulations; and the mark "absent" will be awarded when activities carried out weigh less than 20% in the evaluation (regardless of performance).

In the early call opportunity, evaluation is carried out by a specific exam, comprehensive of all contents and skills of the subject.
