Assessment comments

A) ASSESSMENT REGULATIONS:

Assessment conditions: it is forbidden to access the exam rooms with any device turned on that allows communication with the outside and / or information storage. Regarding the commission of fraud and disciplinary responsibilities, the provisions of article 14 of the "Normas de avaliación, revisión e reclamación das cualificacións dos estudos de grao e mestrado universitario" of the UDC will be applied. Identification: each student must prove his/her personality in accordance with current regulations.

B) TYPES OF GRADING:

The grade of NOT PRESENTED will only be awarded to students whose participation in assessment activities has a weight of less than 20% on the final grade, regardless of the grade achieved. The exposed evaluation also applies to students with recognition of part-time dedication and academic dispense of exemption from attendance. C) ASSESSMENT OPPORTUNITIES:

The evaluation criteria previously indicated in this section will be applied both in the first and the second assessment opportunities. However, in the SECOND ASSESSMENT OPPORTUNITY, there will be the possibility of recovering the qualification of the continuous assessment through a mixed test that will have a weight of 40% in the final grade (maximum 4 points), whose grade will replace the one obtained in the continuous assessment of the first opportunity in case it is higher than this. The advanced assessment opportunity will take place on the date established by the Faculty Board and the exam will be a mixed test of all the subject contents and competencies and for 100% of the final grade.

The delivery of documentary works in this subject: It will be requested in virtual format and / or computer support. It will be done through Moodle, in digital format, not needing printing. The importance of ethical principles related to sustainability values in personal and professional behavior must be taken into account. Work will be done to identify and modify prejudices and sexist attitudes and the environment will be influenced to modify them and promote values of respect and equality. The full integration of students who, for physical, sensory, psychic or sociocultural reasons, experience difficulties to an adequate, equal and profitable access to university life, will be facilitated.
