Assessment comments

A) ASSESSMENT REGULATIONS:

Assessment conditions: it is forbidden to access the exam rooms with any device turned on that allows communication with the outside and / or information storage. Regarding the commission of fraud and disciplinary responsibilities, in general, the provisions of the "Normas de avaliación, revisión e reclamación das cualificacións dos estudos de grao e mestrado universitario" of the UDC will be applied. In particular, the fraudulent performance of tests or evaluation activities, once verified, will directly imply the grade of failure in the call that is committed: the student will be graded with "suspenso" (numerical grade 0) in the corresponding call of the academic year, whether the commission of the fault occurs in the first opportunity as in the second. To this end, the student's grade will be modified in the first opportunity report, if necessary. Identification: each student must prove his/her personality in accordance with current regulations. B) TYPES OF GRADING:

The grade of NOT PRESENTED will only be awarded to students whose participation in assessment activities has a weight of less than 20% on the final grade, regardless of the grade achieved. The exposed evaluation also applies to students with recognition of part-time dedication and academic dispense of exemption from attendance. C) ASSESSMENT OPPORTUNITIES:

First assessment opportunity: the evaluation criteria previously indicated in this section will be applied. Second assessment opportunity: it will be assessed by means of a mixed test (global exam) that will have a weight of 100% in the final grade, unless the application of the same evaluation criteria of the first opportunity results in a higher grade, which shall prevail. Advanced assessment opportunity: it will be assessed by means of a mixed test for 100% of the final grade.

Other comments

The importance of ethical principles related to sustainability values in personal and professional behavior must be taken into account. Work will be done to identify and modify prejudices and sexist attitudes and the environment will be influenced to modify them and promote values of respect and equality. Work will be done to detect situations of gender discrimination and propose actions and measures to correct them. The full integration of students who, for physical, sensory, psychic or sociocultural reasons, experience difficulties to an adequate, equal and profitable access to university life, will be facilitated.
