General description	We pretend with our subject: - To increase the student's self-esteem, making him to understand the whole powers he holds. - To ease to the student the knowledge and handling on the digitalization and the labor and social security legal sources, both normative and case Law ones. - To ease to the student the use of the specfic labor and social security legal terminology on digitalization. - To approach the student to the solution of true labor and social security legal problems on digitalización.			
Contingency plan	1. Modifications to the contents: There are no modifications 2. Methodologies *Teaching methodologies that are maintained. The use of moodle and teams will be reinforced, especially regarding the synchronous expository teaching, at the assigned timetable *Teaching methodologies that are modified.Strengthening of "problem solving", regarding the interactive teaching. 3. Mechanisms for personalized attention to students. Weekly work planning, with notification through moodle. 4. Modifications in the evaluation 4. Modifications in the evaluation.*Evaluation observations:Attendance is weighted according to the attendance period. "Problem solving" would be valued up to 40 percent, lowering the percentage related to objective tests (not more that 40 percent) and attendance. 5. Modifications to the bibliography or webgraphy. there are no modifications.
