Personalized attention	
Methodologies	Description
Mixed objective/subjective test	Generic personalized attention consists of the traditional tutoring through which the teacher makes himself available to students at a specific time, so that they can consult or solve any problem with him individually. Personalized attention in the mixed test takes place after your evaluation. In the traditional exam's review, the teacher will attend personally to the student who requests it, showing the test already done and explaining the correctness of it. PERSONALIZED CARE MEASURES SPECIFIC TO STUDENTS WITH RECOGNITION OF PARTIAL TIME DEDICATION will focus, always taking into account student availability, in establishing substitute options for those evaluation parties that, due to their special circumstances, cannot be fully developed In this way, the continuous evaluation of students with recognition of dedication on time Partial will not be exactly the same as that of students with full dedication, being modulated and adapted to each case specifically, in attention to the personal circumstances of each one.
