(*)The information in the planning table is for guidance only and does not take into account the heterogeneity of the students.

| | Methodologies | | | |
|----------------------|---|--|--|--|
| Methodologies | Description | | | |
| Directed discussion | Directed discussion is a tool that fosters the intervention of students in class based on a proposed topic on the subjects being | | | |
| | taught and, usually, current events. Likewise, it is sought that students look for practical solutions to specific problems based | | | |
| | on the knowledge acquired in previous sessions. | | | |
| Oral presentation | The oral presentation is a technique both for the oral presentation of the cases prepared by the students and for the oral | | | |
| | presentation of parts of the subject. | | | |
| Mixed | For the evaluation of the students, in addition to the continuous evaluation, the result of a mixed test is taken into account, | | | |
| objective/subjective | which, although it may vary from one course to another, is basically made up of test-type questions, short questions and | | | |
| test | eventually the resolution of practical cases. | | | |
| Guest lecture / | The face-to-face classes are developed from theoretical sessions based on the master lesson. Then other techniques are | | | |
| keynote speech | used such as guided discussions or oral presentations | | | |
| Supervised projects | With the preparation of projects, it is intended that students learn to carry out research and develop autonomous learning. | | | |

| | Personalized attention | | | |
|----------------------|--|--|--|--|
| Methodologies | Description | | | |
| Supervised projects | For the preparation of the oral presentation of the research papers or of the resolved cases, the participation of the teaching | | | |
| Mixed | staff for the supervision, the resolution of doubts and the correction of the drafts is advisable. | | | |
| objective/subjective | | | | |
| test | Likewise, for the preparation of the mixed test, it is very convenient to consult and advise the teachers, which will be available | | | |
| Oral presentation | during the tutoring hours. | | | |

Assessment comments

To pass the course it will be an essential requirement to pass the mixed test. The resulting grade will serve to weight the average with the rest of the obtained scores.

The grade of part-time students with academic attendance waiver, officially recognized, will be calculated only on the score of the mixed test.

The first four topics will be taught by the Constitutional Law Area and the remaining ones by members of the Procedural Law Area.
