| Assessment comments |
|--|
| Given that this degree programme is |
| part distance learning, part actual attendance, students are required to attend |
| the compulsory sessions, unless they have applied for exemption within the time |
| period specified by the Academic Commission of the degree, and this exemption |
| has been granted. This exemption will be valid provided students comply with |
| the rules on attendance in force in the three universities participating in the |
| programme, and provided they comply with the assessment systems which are |
| specified in the teaching guides for each module. Students should be aware, |
| however, that not attending certain classroom sessions may affect their final |
| grades. Students |
| who have been granted exemption, as specified in the university regulations, |
| will be assessed according to the criteria applied to the July opportunity. Students |
| who do not submit a supervised project, or who fail |
| to submit at least 50% of the other tasks for assessment, will be graded as |
| absent from assessment (NP: no presentado). Students |
| who do not pass in the first opportunity will be able |
| to re-sit in July, when they will be required to demonstrate that they have |
| acquired the skills for each module via two types of assessment: a supervised |
| project with the same percentage value and characteristics as in the first |
| opportunity, plus the exercises agreed upon with the lecturer as a |
| substitute for the other activities of the module. |
