Assessment comments

In this subject, what is evaluated is the student´s literary competence at analysing texts using various literary perspectives. A general knowledge of the literary schools is also valued, but to a lesser degree. The final mark must be 5 or more to pass . Also 2 out of 5 in the exam, and 2 out of 5 in the continuous evaluation are required.Essays must be original, not copied. We can use "Turnitin" to check them for wrong

citations, plagiarism or any other type of fraud. Should this occur, the rules

for plagiarism will be applied. (Normas de avaliación, revisión e reclamación das

cualificacións dos estudos de grao e mestrado universitario). "Turnitin"recognises papers previously turned in by other people (or the student

him/herself) at this university or other universities, as well as other

material found on Internet.   Those students that do not do commentaries in class, essays etc, have no continuous evaluation marks, so they will have to recover at least two out of 5 points in the second opportunity examination. They may obtain 5 out of 5 in the first opportunity exam (not easy to do), but they would not pass the subject yet. English is the only language used in class and exams. Mistakes must be avoided. Plagiarism is also forbidden. Borrowing ideas from the teacher and books is understandable, but students must try to do their own research. Their input is essential. When a student for whatever justified reason (illness, exemption, etc) cannot do the continuous evaluation pratices he or she must tell the teacher in advance, otherwise he or she will have to wait for the second opportunity evaluation to make up for such parts. He/she may submit a second piece of written work before the first opportunity exam so that the activity can count as 2 points out of 10. Those

students who attend and participate in the continuous assessment activities

will be eventually considered "No Presentados" (absent from

examination) only if they have done less than 25% of the required activities.

 Those students that have been officially given a dispensation (exemption), in accordance with the regulations of this university, must tell the teacher in advance, during the first two weeks of the course. Such students will be assessed in either of the opportunities according to the criteria for the July opportunity. In July the second opportunity evaluation takes place. Those students that have not done or passed the continuous evaluation parts will be given the chance to do so by doing the essays or commentaries necessary. A second 5 point exam is also done at that time for those that failed it earlier or did not take it. That is, the second (July) opportunity will consist of a 50% final exam and 50% activities repeating or replacing the continuous assessment work. Those students sitting the December exam (final exam brought forward) will be assessed according to the criteria for the July opportunity.
