PRELIMINARY ISSUES ON TEACHING AND ASSESSMENT

In accordance with the various

regulations governing university teaching, it is necessary to incorporate a gender perspective into this subject. This includes, among other measures, the use of non-sexist language, bibliographies that are inclusive from a gender perspective, and encouraging participation from all students in class, regardless of their gender.

We will pay particular attention to

identifying and addressing sexist prejudices and attitudes. We will actively work towards the modification of this environment and the promotion of values of respect and equality.

Our efforts will focus on

detecting cases of gender discrimination and implementing appropriate actions to rectify such cases. 1. GENERAL EVALUATION OBSERVATIONS

1.1. To pass the subject, students must pass (with 5 points out of 10) the "Supervised work" and the "Mixed test". Otherwise, you can partially or totally recover these methodologies in the second opportunity, according to the rules detailed in section 2 of these "Observations". 1.2. The practical activities will be delivered exclusively on the days set by the teaching staff of the subject. Those activities that are delivered after the deadline and/or that do not comply with the established guidelines will not be subject to evaluation.

1.3. All tests and activities must meet minimum requirements for linguistic correction (spelling, punctuation, syntactic agreement, absence of repetitions, lexical precision, formal registration, etc.); in the case of linguistic-expressive deficiencies, these can be penalized in the qualification, according to the document "Minimum requirements for linguistic correction" (approved by the Galician-Portuguese Section on 07/06/2018 and posted on the Virtual Campus) . 2. EVALUATION OF THE 2nd CHANCE (xullo) 2.1. In the 2nd opportunity, the students will be evaluated with the same criteria and with the same percentages as in the previous opportunity. In the same way as in the 1st opportunity, to pass the subject on this occasion the student body must pass (with 5 points out of 10) each one of the methodologies.

3. EVALUATION OF THE EARLY OPPORTUNITY OF DECEMBER

3.1. On this occasion, each student will be evaluated through a "Mixed Test", which will account for 50% of the final qualification and which will take place on the official date set by the Faculty of Philology, and various practices (exercises, assignments, etc.), scored at 50%.

4. QUALIFICATION OF NOT PRESENTED (NP)

4.1. Students who do not attend the "Mixed Test" and/or do not present or work supervised will be considered Not Presented.

5. PART-TIME STUDENTS AND WITH ACADEMIC EXCESS

5.1. Students enrolled part-time and with academic dispensation from attendance exemption granted must contact the teaching staff of the subject at the beginning of the academic year to plan, in each specific situation, the necessary adjustments in the evaluation regarding the face-to-face activities (which will be replaced by other equivalent non-face-to-face activities). Likewise, those students who justify the impossibility of attending class should contact the responsible teacher. 6. UNETHICAL BEHAVIOR Any case of plagiarism or academic fraud will mean a fail (0) in the subject, as it appears in the UDC Student Disciplinary Regulation: "Qualification of failing in the call in which a fault is committed in respect of the subject in which it is committed: o/a student will be qualified with 'suspense' (numerical mark 0) in the corresponding call of the academic year, both if the commission of

the fault occurs in the first opportunity and in the second. For this, proceed to modify your qualification in the first opportunity certificate, if necessary.
