Assessment comments

The work tutelado (40%) has voluntary character and, stop this, the student has to choose before the last kind opts by the realization of this work that in the final case of not to deliver it will have a negative repercussion in the final note of two points (-2). Can be realized of individual form (students of the modality online) or in group of 2-3 people (students of the modality presencial or also students online) and versará envelope a study of one marry concrete, a proposal envelope to creation and the development of a system of management of one destine and/or new touristic product or any another fear related with the subject that the student consider of the his interest. In any case, when opting by this alternative of evaluation the student has to propose the thematic of the work to realize and the professor of the subject will communicate the acceptance of the even, his modification or the need of a new formulation. The final delivery will realize during it second fortnight of the month of April (1ª opportunity) or how minimum 15 days before the closing of acta of the month of July (2ª opportunity). Later, it facilitates more information on possible thematic and an orientation of the structure of the his Content. It is important take into account that the alternatives of evaluation chosen for student for it first opportunity will keep also for it second opportunity. During it first fortnight of the month of May will facilitate the provisional final qualifications and a possible date of review/discussion of the same in the second fortnight (second opportunity); as well as, roughly a week before the closing of acta in the month of July (second opportunity). Nevertheless, and in spite of the system of evaluation proposed previously, to the beginning of the academic course, in the presentation of the subject, can be exposed another type of percentage distribution go in the distinct methodologies. By another band, be able to be obtained additional qualifications in function of the exposed in the moment by professor of the subject. The work has to be of personal manufacture/grupal and, anyway, will be able to contain a summary of data, no a simple copy and hits of data consulted. It Will be necessary to indicate also in the own text the bibliographic sources consulted and at the end of the document collected all they in the bibliography section. The " stuents with recognition of dedicación in time partial and metes out academic of exemption of assistance" will communicate to the start of the course his situation the professors of the subject, second establishes the "Norm that regulates the regime of dedication to the study of the students of degree in the UDC" (Art.3.b And 4.5) and the "Norms of evaluation, review and claim of the qualifications of the studies of degree and mestrado university (Art. 3 and 8b).
