Methodologies	
Methodologies	Description
Introductory activities	Activities that are carried out in order to know the competences, interests and / or motivations that the students have to achieve the objectives. It seeks to obtain relevant information that allows articulation of teaching to foster effective and meaningful learning, based on the students' previous knowledge. The students of distance modality will participate in a forum abierto specifically for this point
Guest lecture / keynote speech	ATTENDANCE: Oral presentation complemented with the use of audiovisual media and the introduction of some questions addressed to students, with the purpose of transmitting knowledge and facilitating learning. ON LINE MODALITY: Study guided through multimedia material (recorded classes, videos, power point presentations) following the contents.
Field trip	ATTENDANCE: As much as possible, a visit will be made to a health tourism and coastal tourism center to be determined by the teachers. This visit will be compulsory for students with face-to-face teaching. ON LINE MODALITY: Students with training in this modality will be advised that as far as possible visit a center near their home.
Workbook	Bibliographical documents (articles, reports, etc.) relevant to the topic of the subject will be synthesized contents of a theoretical or practical nature.
Critical bibliographical	The recensión bibliographic supposes a process of critical reading of an article, the analysis of the his content and a critique and assessment of the same in regard to the existing literature envelope the subject. A recensión does not suppose a summary of the work, neither a mere analysis of the contained, so what awards him sense and academic dimension scientist is the critique that deserves to judgement of the author of the recensión, in regard to other works known of the even field or in regard to his propio experience.
Supervised projects	Elaboración dun traballo en grupo relacionado coa materia. Os alumnos serán capaces de realizar un deseño básico dun centro de turismo de saúde, cuxa tipoloxía e segmento ao que se dirixe quedará á elección do alumnado. O traballo tutelado está deseñado para promover a aprendizaxe autónoma dos estudantes, baixo a tutela do profesor. Este sistema de ensino baséase en dous elementos básicos: a aprendizaxe independente dos estudantes e o seguimento desa aprendizaxe polo profesor-titor durante os días de impartición das clases maxistras e nas datas e horarios establecidos de tutorías. Os traballos expoñeranse en clase nas datas fixadas tras finalizar as clases maxistras. MODALIDADE ON LINE: O traballo será realizado de forma individual salvo que desexen formar grupos virtuais con outros alumnos da mesma modalidade. Deberá ser comunicado con antelación ao profesorado. Tamén serán titorizados de forma individual ou colectiva segundo o caso. Poderán expoñer o traballo, enviando unha presentación con voz ou nunha sesión de skype.

Case study	Os alumnos distribuídos en grupos realizarán un estudo dun caso de turismo en espazo litoral vinculado á talasoterapia. Describirase un caso concreto por parte do profesorado que expón un problema que ha de ser comprendido, valorado e resolto por un grupo de persoas, a través dun proceso de discusión. O alumno sitúase ante un problema concreto (caso), que lle describe unha situación real da vida profesional, e debe ser capaz de analizar unha serie de feitos, referentes a un campo particular do coñecemento ou da acción, para chegar a unha decisión razoada a través dun proceso de discusión en pequenos grupos de traballo. MODALIDADE EN LIÑA: O traballo será realizado de forma individual salvo que desexen formar grupos virtuais con outros alumnos da mesma modalidade. Deberá ser comunicado con antelación ao profesorado. Tamén serán titorizados de forma individual ou colectiva segundo o caso
Oral presentation	ATTENDANCE: Students in the classroom will make an oral presentation of the tutored work ON LINE MODALITY: Students of distance mode will present a power point presentation and a forum and virtual debate will be organized in which the students should participate.

Personalized attention	
Methodologies	Description
Critical bibliographical Supervised projects Case study Oral presentation Field trip Workbook Introductory activities Guest lecture / keynote speech	During the academic year, personalized and continuous attention will be given to all students enrolled in this subject, both to answer questions about the face-to-face / online classes, and to address topics related to the work In the tutored works and in the case study the teachers will attend in a particular way the needs of the students, At the field exits the student will have a personalized attention adapted to the concerns with respect to the different aspects that will be studied in the visits. In the tutored work, the teacher will follow a personalized process of the student's learning process

Assessment			
Methodologies	Competencies	Description	Qualification
Critical bibliographical	A2 A5 B6 C1 C6 C9	It Will do a recensión of an article	10
Supervised projects	A6 B6 B7 C1 C6 C9	Elaboración dun traballo en grupo relacionado coa materia. Os alumnos serán capaces de realizar un deseño básico dun centro de turismo de saúde, cuxa tipoloxía e segmento ao que se dirixe quedará á elección do alumnado que se apoiará para a súa elaboración na documentación e presentacións achegadas polo profesorado. A súa realización é obrigatoria e na avaliación teranse en conta a aplicación dos fundamentos teóricos, uso de bibliografía, orixinalidade, calidade na redacción, así como a calidade da presentación oral, que realizarán todos os integrantes do grupo	25
Case study	A1 A5 A6 B6 B7 B8 C9	Os alumnos distribuídos en grupos realizarán un estudo dun caso de turismo en espazo litoral vinculado á talasoterapia. MODALIDADE EN LIÑA: O traballo será realizado de forma individual salvo que desexen formar grupos virtuais con outros alumnos da mesma modalidade. Deberá ser comunicado con antelación ao profesorado. Tamén serán titorizados de forma individual ou colectiva segundo o caso.	10
Oral presentation	B6 B7 C1 C9	The works will be exhibited in the classroom individually or in groups. The different quality aspects of the information handled, the presentation and the answers to the questions will be evaluated. In the remote mode the work will be delivered and the questions raised will be answered virtually.	5
Workbook	A11 A6 B3 B6 B8 C6	Analytical and synthesis capabilities will be assessed	30

Guest lecture / keynote speech	A11 A5 A6 A8 B9 C5	In the face-to-face modality, the maximum possible score will be obtained in this section with attendance and active participation to 80% of the master sessions. In the case of non-attendance, a work will be carried out to be indicated by the teacher about the content taught. In the distance mode, active participation in the virtual discussion forum will be assessed.	20
Others			

Assessment comments

Attendance and participation in class will be assessed taking into account the involvement of students in face-to-face sessions (classroom mode) or active and reasoned participation in forums / debates, collaborative tasks, virtual tutorials, ... (online mode).
