General description	Asignatura dirixida a coñecer a hixiene vocal e los principais recursos técnicos para correxir a voz o para mellorarla.			

Study programme competences

Code	Study programme competences
A1	Os estudantes saberán aplicar os modelos, técnicas e instrumentos de avaliación empregados na avaliación da linguaxe oral..
A2	Os estudantes poderán levar a cabo a avaliación de trastornos específicos da linguaxe oral, tales como as disartrias, alteracións da linguaxe no envellecemento e trastornos dexenerativos, as alteracións da linguaxe en enfermidades mentais, trastornos do espectro autista, etc.
B3	Os estudantes poderán comunicarse de maneira efectiva nun entorno de traballo.
B4	Os estudantes serán capaces de tomar decisións con autonomía e responsabilidade.
C6	Os alumnos/as saberán utilizar as ferramentas básicas das tecnoloxías da información e as comunicacións (TIC) necesarias para o exercicio da súa profesión e para o aprendizaxe ó longo da súa vida.
C8	Os estudantes valorarán a importancia que ten a investigación, a innovación e o desenvolvemento tecnolóxico no avance socioeconómico e cultural da sociedade.

Learning outcomes

Learning outcomes	Study programme competences		
In general, the student will know main vocal functional disorders, which need vocal technique and hygiene (Principal causes (functional errors, toxic and triggers), clinical types and the main methods of assessment and diagnosis. Students will know hygiene and vocal technique to correct hyperfunctional errors or to improve oral skills.	AJ1 AJ2	BJ3 BJ4	CJ6 CJ8
Os alumnos practicarán as técnicas vocais e de dicción	AJ1 AJ2	BJ3 BJ4	CJ6 CJ8

Contents

Topic	Sub-topic
UNIT 1: A normal and pathological voice	- Characteristics and acoustic parameters of the voice. - Main mistakes to use of the voice . - Vocal assessment: anamnesis and voice exploration.
UNIT 2: Professional dysphonia and vocal hygiene.	- Clinical aspects, etiologies and main clinical types. - Vocal treatment: Resources and principles of vocal therapy. - Measures of vocal hygiene.

UNIT 3: Vocal technique: practice of hyperfunctional errors and specific techniques.	. Errors of the respiratory system. . Phonation system errors. . Mistakes of the resonance and articulation system. . Resonance technique and semi-occluded tract.
UNIT 4: Techniques to improve the oral presentation for the Final Master's Works.	.Body language. . Voice. . Diction: articulation and pronunciation.

Methodologies	
Methodologies	Description
Guest lecture / keynote speech	The theoretical contents will be taught with the practical ones, consecutively. The theorists will be taught in a magisterial session with the support of slides and videos. And the practical part through practical exercises related to the theoretical explanation.
Critical bibliographical	Students will conduct a search on a vocal technique or hygiene topic. This activity will be delivered in writing and will serve for the introduction or theoretical foundation in the oral presentation. Written document: 3-4 pages (one side) to synthesize the most relevant and updated on the subject. Evaluation criteria: 1) Bibliographic richness, that is, number of articles from international or national scientific quality journals, from Web of Science, Scopus, Medline, PubMed databases, 2) Synthesis and organization of ideas developed and accuracy in the narration and 3) correct APA and orthographic rules.
Supervised projects	Elaboración de material de intervención a partir das pautas facilitadas polo profesor.
Clinical practice placement	Clinical practicing will serve to offer some examples of vocal problems and their laryngeal and acoustic effects.

Personalized attention	
Methodologies	Description
Supervised projects	in order to prepare the oral presentation, the students have some hours of tutorials to solve doubts that may arise during the elaboration process. During the clinical practice sessions, the teacher will attend to existing questions and doubts.

Assessment			
Methodologies	Competencies	Description	Qualification

Critical bibliographical	A2 B3 B4 C6 C8	Written document: 3-4 pages (one side) to synthesize the topic, in a relevant and updated way. Evaluation criteria: 1) Bibliographic wealth, that is, the number of articles of scientific journals of international or national scientific quality, Web of Science databases, Scopus, Medline, PubMed, 2) Synthesis and organization of ideas developed and accuracy in storytelling and 3) correct APA rules and spelling. This activity to pass is to get students a 2 or higher.	50
Supervised projects	A1 A2 B3 B4 C6 C8	Valora a capacidade de elaboración de material de intervención acorde cos fundamentos teóricos.	50

Assessment comments

To pass the subject, the students have to approve both parts (bibliographic recession and oral presentation)., Each student must to to get at least a 2 in bibliographic recession and a 3 in oral presentation.

Other comments

This subject will be useful to prepare voice and diction for the oral presentations, such as academic work in Master.

Advise yourself to attend more classes because of its high practical content.
