| General description | The aim of this module is to introduce the key concepts regarding Teaching Foreign Languages in Early Childhood Education. These concepts guide the teaching and learning process from a critical and reflective perspective. The module implies an approach to Teaching Foreign Languages focused on communicative competence and the oral skills, as listening and speaking are the key abilities to promote in this stage. Furthermore, students will revise the use of English as a tool, not only for this university module, but also for their future career in a plurilingual teaching context. | | | |

Methodologies

| Methodologies | Description |
|---------------------------------|--|
| Guest lecture / keynote speech | Oral presentation (using audiovisual material and student interaction) designed to transmit knowledge and encourage learning. Presentations of this type are variously referred to as ?expository method?, ?guest lectures? or ?keynote speeches?. (The term ?keynote? refers only to a type of speech delivered on special occasions, for which the lecture sets the tone or establishes the underlying theme; it is characterised by its distinctive content, structure and purpose, and relies almost exclusively on the spoken word to communicate its ideas.) |
| Oral presentation | Core component of teaching-learning process involving coordinated oral interaction between student and teacher, including proposition, explanation and dynamic exposition of facts, topics, tasks, ideas and principles. |
| Mixed objective/subjective test | Mixed test consisting of essay-type and objective test questions. Essay section consists of open (extended answer) questions; objective test may contain multiple-choice, ordering and sequencing, short answer, binary, completion and/or multiple-matching questions. |
| Collaborative learning | Guided teaching-learning procedures (overseen in person and/or using ICT methods) based on organisation of class into small groups in which students work together to solve tasks assigned by teacher, with aim of optimising their learning experience and that of other members of group. |
| Document analysis | Research skills development involving use of audiovisual and/or bibliographical documents (documentary or film extracts, news items, advertising images, photographs, articles, legal texts, etc.) relating to specific topic of study, with targeted analysis activities. Used as introduction to topic, as focus for case study, to explain abstract processes and present complex situations, or as strategy for synthesising content (theoretical and practical). |
| Workbook | Compilation of printed texts and written documents, collected and edited as tool to consolidate knowledge of course content. |
| Research (Research project) | Teaching process aimed at promoting student learning through use of practical, situation-based activities in which learner is tasked with identifying problem, articulating specific nature of problem, analysing it, interpreting results, and reaching appropriate conclusion. |
| Student portfolio | Folder or binder divided into clearly marked or labelled sections containing record or products of learning activities performed over a given period, with student?s progress charted through marks achieved and comments of teacher. Portfolio includes: class notes, research, project outlines and development, article analysis, summaries, tests, self-assessment, tasks and task outcomes, teacher?s progress reports, etc. |

| Personalized attention | |
|-----------------------------|---|
| Methodologies | Description |
| Document analysis | The oral presentations, as well as the assignments carried out throughout the course and the portfolio, may entail the need for personalized attention during office hours. |
| Student portfolio | |
| Research (Research project) | Students without regular attendance may also receive personalized attention during office hours, or in case they can not attend during that time, a special appointment may be arranged via email or phone. |
| Workbook | |

Other comments

Oral presentations, activities, tasks and the portfolio done throughout the module may need individual support during office hours.

Resources must be used sustainably in order to avoid negative effects on the environment. Therefore, it is recommended to send activities, projects and task online. Otherwise, it is preferable that plastic is not used, double-page printing, recycled paper and avoid printing drafts.

It is crucial to remember the ethical principles regarding sustainability values in professional and personal behaviour.
