General description	Con esta materia preténdese dar a coñecer como os novos desenvolvimentos tecnolóxicos poden repercutir positivamente en colectivos como o das persoas maiores. Con este novo escenario facilitase un incremento notable de desenvolvemento de Produtos de apoio e medios que permiten a accesibilidade para os nosos maiores.			

Study programme competences	
Code	Study programme competences
A1	To be able to recognize the main pathologies and geriatric syndromes through the application of new and innovative work methodologies adapted to the field of gerontology
A2	Be able to apply the method of comprehensive geriatric and gerontological assessment in order to establish the bases for implementing the individualized care plan
A3	To be able to incorporate the Geronto-geriatric intervention methodology into the individualized intervention plans
A4	To be able to assume responsibility for their own professional development and their specialization in both the socio-health and health care for the older people in order to join the interdisciplinary teams of Geronto-geriatric assessment and intervention
A5	Acquire knowledge that allows the student to establish the appropriate Geronto-geriatric resource according to the characteristics of the older person
A6	Develop sufficient autonomy to participate in research projects and scientific or technological collaborations within the field of Gerontology, in interdisciplinary contexts both public and private and, where appropriate, with a high component of knowledge transfer.
A7	Acquire advanced knowledge and demonstrating, in a context of scientific and technological or highly specialized research, a detailed and informed understanding of the theoretical and practical aspects and the methodology of work in the field of Gerontology
A8	Know how to apply and integrate the knowledge acquired, the understanding of these, its scientific foundation and its problem-solving capabilities in social and socio-sanitary environments and defined in an imprecise way, including multidisciplinary contexts both researchers and professionals in the field of gerontology
B1	Possess and understand knowledge that provides a basis or opportunity to be original in the development and/or application of ideas, often in a research context
B2	That students know how to apply the knowledge acquired and their ability to solving problems in new or little-known environments within broader (or multidisciplinary) contexts related to gerontology and geriatrics
B3	That students are able to integrate knowledge and face the complexity of making judgments from information that, being incomplete or limited, includes reflections on the social and ethical responsibilities linked to the application of their knowledge and judgments.
B4	That students know how to communicate their conclusions ? and the knowledge and ultimate reasons that support them ? to specialized and non-specialized audiences in a clear and unambiguous way
B5	That students possess the learning skills that allow them to continue studying in a way that will be largely self-directed or autonomous
C6	Acquiring skills for healthy lifestyles, and healthy habits and routines
C7	Developing the ability to work in interdisciplinary or transdisciplinary teams in order to offer proposals that can contribute to a sustainable environmental, economic, political and social development

Learning outcomes		
Learning outcomes	Study programme competences	
Impulsar a formación en materia de accesibilidade desde unha perspectiva preventiva e transversal.	AJ3	BC1 CC6 CC8
Identificar o deseño universal como un ben social e de valor engadido para produtos e servizos.	AJ5 AR2	BC4
Entender a accesibilidade como un valor positivo que achega, mellora, e orienta ás persoas maiores.	AJ1 AJ2	BC2 BC3
Abordar as principais intervencións para fomentar o Envellecemento Saudable en relación ás TIC	AC1	BC5 CC7
Profundar nos aspectos ambientais que inflúen, especificamente no benestar das persoas maiores, desde o deseño de contornas amigables.	AJ1 AJ3 AJ4 AR1	

Contents	
Topic	Sub-topic
TEMA 1. Capacidad, funcionamento e uso da contorna	1.1 Conceptos e definicións. 1.2 Cuantificación de beneficiarios.
TEMA 2. Deseño universal	2.1 Principios que rexen o deseño universal (Ron Mace). 2.2 Norma UNE 1700001.
TEMA 3. Produtos de apoio	3.1 Consideracións de partida. 3.2 Definicións. 3.4 Clasificación xeral ISO. 3.5 Produtos de apoio como facilitadores da autonomía persoal. Novas tendencias.
TEMA 4. Accesibilidade cognitiva: Solucións transversais	4.1 Definicións e referencias. 4.2 Abordaxes na contorna física e virtual. 4.3 Modelo para deseñar espazos accesibles.
TEMA 5. Accesibilidade física e sensorial	5.1 Definicións e referencias. 5.2 Propostas para ir más aló da eliminación de barreiras
TEMA 6. Envellecemento saudable. Contornas saudables. Cidades amigables	6.1 Achegamento á terminoloxía e ás estratexias para levar a cabo un envellecemento saudable. 6.2 Programa da OMS para contornas adaptadas ás persoas maiores. 6.3 Rede de Cidades Amigables coas Pessoas Maiores, que ofrecen e que facer para formar parte.
TEMA 7: Aplicación das novas tecnoloxías á saúde e benestar dos maiores	7.1 Percepcións e actitudes dos maiores xerais cara ás TIC. 7.2 A persoa maior como axente activo da tecnoloxía. 7.3 Participación nas redes sociais. 7.4 Iniciativas utilizando as TIC en favor das persoas maiores, coidado e vida independente no fogar.
TEMA 8: Como impulsar a innovación das TIC aplicadas á saúde e o benestar dos maiores	8.1 Experiencias en I+D+i en TIC

Methodologies	
Methodologies	Description
Supervised projects	De revisión bibliográfica
Multiple-choice questions	Exame tipo test composto por corenta preguntas con catro respuestas cada unha das cales unicamente unha será correcta. As preguntas mal contestadas restarán 0,33 puntos sobre as correctas, non restando as non contestadas. Para superar o exame o alumno deberá obter unha puntuación final do 65% do total unha vez restados os puntos das falladas. Ej; 30 ben, 4 mal e 6 non contestadas. A puntuación final será 30-4,033=28,68=6,5
Guest lecture / keynote speech	Valorarase a asistencia e participación en clase
Critical bibliographical	Análise crítica artigos científicos

Personalized attention	
Methodologies	Description
Supervised projects	Daranse pautas e orientacións ao alumno para a realización dos traballos.

Assessment			
Methodologies	Competencies	Description	Qualification
Critical bibliographical	A1 A2 A5 A4 A6 A7 B1 B2 B3 B4 B5	Análises críticas de artigos científicos	20
Supervised projects	A1 A2 A5 A4 A6 A7 A8 B1 B2 B3 B4 B5 C7 C8	Traballos de revisión bibliográfica	20
Multiple-choice questions	A1 A2 A5 A4 A6 A7 B1 B2 B3 B4	Exame tipo test composto de 40 preguntas	55
Guest lecture / keynote speech	A1 A2 A3 A5 A4 A6 A7 B1 B2 B3 B4 C6	Valorarase a asistencia e participación en clase	5
