Methodologies	
Methodologies	Description
Guest lecture / keynote speech	Oral presentation by the teachers (expository teaching) guided by audiovisual media. Keynote sessions will aim to convey general knowledge about the subject and solving doubts. They will take place on Tuesdays from 4:00 to 6:00 p.m., on alternate weeks.

Workshop	Students will develop eminently practical tasks (both in the classroom and at home) on specific themes, with support and supervision of the teachers: study of clinical cases, debate and discussion of specific contents of the subject, review and analysis of papers selected by the teacher and related topics, videos, reviews of current news...
Supervised projects	The student will develop a supervised work (experimental or theoretical) related to the subject. Regardless of the type of selected work (experimental or theoretical), it will include the review of scientific articles (in Spanish and English) on the topic and a critical appraisal of them. The work must be exposed in class with the support of audiovisual media.
Multiple-choice questions	The topics treated in class during the keynote sessions will have to be overcome by a written test consisting of 40 questions with 4 response options.

Personalized attention

Methodologies	Description
Workshop Supervised projects	<p>The tutoring of supervised projects and practical exercises required in the workshops can be done in the tutorial hours or by email: laura.lorenzo.lopez@udc.es. In addition to the personalized attention that students demand, there will be two mandatory meetings to carry out the monitoring of the supervised work. The form and the time in which these mandatory meetings will take place will be indicated throughout the course.</p> <p>Students with part-time dedication and academic waiver of exemption from attendance recognition must indicate it at the beginning of the course to adopt appropriate measures of attention in each case.</p>
