General description	This asignatura pretends the development of competitions that allow to the alumnado comprise and apply the knowledges related with the medical Rehabilitation in the adult with physical disability.				

Contingency plan

1. Modifications to the contents

- they will not realise changes.

- The teaching of the matter during the course 2020-2021 will realise of hybrid way (face-to-face+no face-to-face), according to pandemia of the covid and other considerandos (ideal classroom or institutional subjects and academicians of the each professor).

2. Methodologies

*Teaching methodologies that are maintained

- initial Activities

- Session magistral

- Study of cases

- Proof written

*Teaching methodologies that are modified

- Any.

3. Mechanisms for personalized attention to students

Email: Daily, with the exception of the weekends and festive. Of use to do queries, request virtual meetings and to resolve doubts. They will answer in schedule of morning of the work days.

Moodle: According to the need of the alumnado. It will answer een matutinal schedule of work days. It has of forums.

Tutorías According to official calendar: Face-to-face the Teams to criterion of the professor, according to context.

On no account it will answer queries through social networks (facebook, messenger, etc...).

The chat only will be of use for the representatives of the class of a very restricted way with the/the manager of the matter.

4. Modifications in the evaluation

FIRST And SECOND OPPORTUNITY, PLAN I, Of first election (10 points, minimum to approve five points): The examination written face-to-face, according to procedure established in the guide GADU will be able to advance for the whole and with the agreement of the alumnado, to criterion of the profesorado, in the previous months in the most adapted date according to the sanitary and social context of the pandemia. The advance would cancel the option to examine in the official date established in official calendar for January/February.

FIRST And SECOND OPPORTUNITY PLAN B, Only, in case again be of alarm and confinement (10 points, minimum to approve, 5 points).

It would realise , preferably:

- Examination written recorded Teams. Of in the be feasible technically the previously mentioned proof, alternative: in his Oral moment Teams, and/or Works and/or questionnaires test, to criterion of the profesorado.

Writing Teams recorded:

With the new technologies that will implant from the Computer Service (49 cameras/screen) and other improvements.

Oral Teams:

short Questions during aprox. 10-15 minutes/student in announcement with the relation of alumnado previously organised. It will evaluate to each student/to of way individualizada (of one in one). To be necessary in several sessions, preferably of afternoon, in schedules that determine the FCS. It will record audio-video of the examination of each student/to.

Works: To determine by the profesorado of each matter.

Questionnaires test.

REVIEW: Face-to-face or Oral Teams in date and hour to determine.

*Evaluation observations:

5. Modifications to the bibliography or webgraphy

They will not realise changes. They have of all the materials of work of way digitalizada in Moodle situated by each one of the members of the profesorado of the matter.

Study programme competences	
Code	Study programme competences
A3	Sintetizar y aplicar el conocimiento relevante de ciencias biológicas, médicas, humanas, psicológicas, sociales, tecnológicas y ocupacionales, junto con las teorías de ocupación y participación.
B2	Resolver problemas de forma efectiva.
B5	Trabajar de forma colaborativa.
B6	Comportarse con ética y responsabilidad social como ciudadano y como profesional.
B7	Comunicarse de manera efectiva en un entorno de trabajo.
B8	Capacidad de análisis y de síntesis.
B9	Capacidad de aplicar los conocimientos a la práctica.
B10	Conocimientos básicos de la profesión.
B11	Capacidad para trabajar en un equipo interdisciplinar.
B12	Conocimientos generales básicos sobre el área de estudio.
B14	Habilidades interpersonales.
B29	Trabajo en equipo.
C4	Desarrollarse para el ejercicio de una ciudadanía abierta, culta, crítica, comprometida, democrática y solidaria, capaz de analizar la realidad, diagnosticar problemas, formular e implantar soluciones basadas en el conocimiento y orientadas al bien común.

Learning outcomes			
Learning outcomes	Study programme competences		
	A3	B2	C4
Work appearances of occupational and half interest-environmental from the Attention of the Adult with Physical Disability from the knowledge of the general perspective and integral of the Medical Rehabilitation in contexts interdisciplinares.		B2 B6 B8 B9 B11 B12 B14 B29	
Improve the skills and attitudes of the student of Occupational Therapy like person and like professional purchasing the generic competitions assigned.	A3	B5 B6 B7 B8 B10 B11 B29	C4
Know notable appearances of the medical Rehabilitation and the Integral Attention of the Adult with Physical Disability like general foundation and interdisciplinar previous to the study from the occupational perspective and of the surroundings.	A3	B10 B11 B12 B29	C4
Develop like person, as professional and like citizen for the exercise of an open citizenship, literate, critical, committed, democratic and solidaria, able to analyse the reality, diagnose problems, formulate and implant solutions based in the knowledge and oriented to the very common, respecting the Human Rights and cuidar the sustainability of the half-environment. Methodologies	
Methodologies	Description
Guest lecture / keynote speech	The masterclass is also known as "Conference", "Method expositivo" or "Lesson magistral". This last modality is used to reserve to a special type of lesson given by a professor in special occasions, with a content that supposes an original preparation and based in the almost exclusive use of the word like road of transmission of the information to the audience.
Case study	Teaching-learning method in which students are presented with a specific set of real-life circumstances and a problem (?case?) which they must attempt to understand, assess and solve as a group through a process of discussion. Students should be able to analyse a series of facts relating to a particular area of knowledge or activity, and arrive at a rational conclusion via a process of discussion within small work groups.
Introductory activities	Activities that carry out before initiating any process of education-learning to end to know the competitions, interests and/or motivations that possesses the alumnado for the attainment of the aims that want to reach , linked to a formative program. With her it pretends obtain notable information that allow to articulate the teaching to favour effective and significant learnings, that split of the previous knowledges of the alumnado. It allows to purchase the competitions of start and adaptation of this asignatura.

Personalized attention	
Methodologies	Description
Case study	The personalised attention will do , as a whole, by means of tutorías personalised direct and virtual, individual and grupales.

Assessment

Methodologies	Competencies	Description	Qualification
Case study	B2 B5 B8 B9 B14	Only examination gives session maxstral and estudo of cases by oportunidade. To matter compórtase, avalíase and revisase like an everything. To suspend, do not save cualificacións parciais of "parts of examination".	0

Assessment comments

ECOLOGICAL OBSERVATIONS:

To help to achieve some sustainable immediate surroundings and fulfil the strategic aim of the Plan Green Campus FCS, the documentary works that realise in this matter:

the.- Mostly they will request in virtual format and computer support.

b.- To realise in paper:

- they will not use plastic.
- They will realise impressions to double expensive.
- It will employ paper recycled.
- It will avoid the realisation of drafts.

QUALIFICATION OF THE MATTER REHABILITATION OF THE ADULT WITH PHYSICAL DISABILITY OF THE DEGREE IN THERAPY IN OCCUPATIONAL THERAPY:

The responsible professor if it reserves to possibility to realise some change in the evaluation, review or other appearances that will be notified to the students in advance.

An alone and only integrated examination by opportunity, with the following distribution of punctuations:

- A. The Prof. Sergio Santos will evaluate on 4 points (40%).
- B. The Prof. Antonio Rodríguez Sotillo will evaluate on 3 points (30%).
- C. The Prof. Antonio Montoto Marqués will evaluate on 3 points (30%).

The final qualification of the theoretical examination (sessions magistrales and study of cases), and therefore of the subject, will be the addition of A+B+C. Only it will review a qualification: the final qualification, with the presence together, if possible fact, with the subject teaching It will need an equal or greater qualification to 5 points to approve the subject. If the total sum was inferior to 5 points, the final qualification of the matter will be of suspense/to. INFORMATION ON THE FINAL QUALIFICATION:

- In relation with the announcement/course, will realise only a final examination/opportunity: one at the earliest opportunity and another in the second opportunity (July) to preserve the equity in the deal with the students. The dates of exams will be establish according to the official calendar approved by the Committee Faculty.

- The matter comports, evaluates and reviews how one everything. To suspend, don't save partial qualifications of "parts of examination".
