General description	? Introduction to the basics of account	ing				
	? Introduction to the basics of corporate finance					
? Introduction to financial statement analysis and decision-making						

Contingency plan

- 1. Modifications to the contents
- ? No modifications
- 2. Methodologies
- *Teaching methodologies that are maintained
- ? All, as they may be applied both on face-to-face and virtual scenarios using ICT synchronous and asynchronous tools
- * Teaching methodologies that are modified
- ? No modifications
- 3. Mechanisms for personalized attention to students

FMAII

? Daily use to request virtual meetings to solve doubts and follow-up the supervised projects

MOODLE

- ? Discussion forum. At student?s convenience to submit questions related to the course, raise questions and clarify doubts
- ? Diffusion of materials. According to the development of the course
- ? Self-assessment and assessment activities. According to the settled schedule

TEAMS

- ? Videoconferences for the development of the sessions (whole group and small groups). Weekly according to the official timetable
- ? Videoconferences for the personalised attention. According to the settled schedule (lecturer and student/team contact previously by email)
- ? Videoconferences for the assessment activities. According to the settled schedule
- 4. Modifications in the evaluation
- ? No modifications
- *Evaluation observations:
- ? In addition to the evaluation observations recorded on the teaching guide:
- ? Assessment activities will take place through Moodle. The lecturer may request partial or total oral explanation after the delivery and evaluation of the activities
- ? It is compulsory to be connected to Teams videoconference and Moodle
- ? If technical issues impede the development of the exam, it is necessary to immediately inform the lecturer; the alternative option will be an individual oral exam through Teams videoconference.
- 5. Modifications to the bibliography or webgraphy
- ? No modifications

	Study programme competences
Code	Study programme competences
A10	To acquire the economic-financial fundamentals needed to assess the status of a fashion firm and to adequately manage it from a triple
	perspective of liquidity, solvency and profitability
B1	That students demonstrate that they acquired and understood knowledge in a study area that originates from general secondary education
	and that can be found at a level that, though usually supported by advanced textbooks, also includes aspects implying knowledge from the
	avantgarde of its field of study

B2	That students know how to apply their knowledge to their job or vocation in a professional form, and have the competencies that are
	usually demonstrated through elaboration and advocacy of arguments and problem resolution within their field of study
В3	That students have the capacity to collect and interpret relevant data (normally within their field of study) in order to issue judgements that
	include a reflection upon relevant topics in the social, scientific or ethical realm
B4	That students may convey information, ideas, problems and solution to the public, both specialized and not
B5	That students develop those learning skills that are needed to undertake ulterior studies with a high degree of autonomy
В8	Capacity to plan, organize and manage resources and operations
В9	Capacity to analyse, diagnose and take decisions
C2	Mastering oral and written expression in a foreign language.
C5	Understanding the importance of entrepreneurial culture and the useful means for enterprising people.
C8	Valuing the importance of research, innovation and technological development for the socioeconomic and cultural progress of society.
C9	Ability to manage times and resources: developing plans, prioritizing activities, identifying critical points, establishing goals and
	accomplishing them.

Learning outcomes				
Learning outcomes		Study programme competences		
To know accounting and financial terminology	A10	B4		
To know the accounting method and its output: the financial statements	A10		C5	
To know basics of corporate finance	A10		C5	
To interpret financial information in order to express opinions and make decisions	A10	B1 B2		
		B3 B4 B9		
To transmit accounting and financial information in a foreign language (spoken and written communication)		B1 B2 B4	C2	
To use basic information and communications technology tools to enable lifelong learning and professional development		D4	C5 C8	
To enhance autonomous learning and problem solving skills		B2 B5 B8 B9	C9	
To work with others in a consultative way		B4 B5 B8	C9	
To act ethically in business	A10	B2 B5	C5

	Methodologies
Methodologies	Description
Guest lecture / keynote speech	Presentation of the basic concepts to enable students to solve proposed accounting and financial problems
Directed discussion	Active participation in discussions by preparing carefully the assigned material
Problem solving	To solve, present and discuss the assigned exercises (teamwork or individual work)
ICT practicals	To solve, present and discuss the assigned exercises (teamwork or individual work), using ICT (spreadsheet and other applications)
Supervised projects	To prepare, present and discuss the assigned projects (teamwork)
Online forum	Online tool to raise questions and clarify doubts concerning the subject
Objective test	Partial and final exams covering theory and practice
Seminar	Conferences and meetings with experts to study and discuss different matters related to the subject

	Personalized attention
Methodologies	Description

Seminar	Personalised attention (individual and in group) will take place through videoconferences in Teams.
Problem solving	
Supervised projects	The supervised projects will require follow-up sessions. The lecturer will schedule the personalised attention to each team in
Directed discussion	order to assess the work done by the group, as well as each member. The information will be provided during the
ICT practicals	corresponding term according to the development of the course.
Objective test	
	Moreover, the lecturer will be available on tutorials periods to clarify any doubt concerning assigned exercises or projects.
	Part-time students with academic dispensation are required to contact with the lecturer before 30th September to settle a specific tutorials calendar.

Assessment				
Methodologies	Competencies	Description	Qualification	
Seminar	B2 C2 C5	Students will have to deliver a test and/or report for each conference and meeting with	10	
		experts.		
Problem solving	A10 B2 B3 B4 B5 B8	Students will have to solve, present and discuss the assigned exercises (teamwork or	10	
	B9 C2 C9	individual work)		
Supervised projects	A10 B2 B3 B4 B5 B8	Students will have to prepare, present and discuss the assigned projects (teamwork).	30	
	B9 C2 C8 C9	Assessment will take into account the rigour in the delivery and resolution, the		
		presentation and the answer to the questions raised by the students and the lecturer		
ICT practicals	A10 B2 B3 B4 B5 B8	Students will have to solve, present and discuss the assigned exercises (teamwork or	10	
	B9 C2 C8 C9	individual work) using ICT		

Objective test	A10 B1 B2 B3 B4 B8	he objective tests assess both theoretical and practical issues. In order to get through	40
	B9 C2 C9	the subject it is compulsory to obtain a minimum mark of 4 out of 10 in each objective	
		test. If this requirement is not fulfilled, the registered grade will be the mark of the	
		exam that does not surpass the minimum limit, independently of continuous	
		assessment marks.	
		EVALUATION IN THE FIRST OPTION	
		The first midterm exam will be held during the first semester (the lecturer will establish	
		the date). It is worth 20% of the final grade. To have the opportunity to attend the	
		second midterm exam, it is compulsory to obtain a minimum mark of 4 out of 10 in the	
		exam.	
		At the end of the course, on the date set by the faculty the following exams will take	
		place:	
		a) Second midterm for those students who got through the first midterm exam. It is	
		worth 20% of the final grade. In order to get through the subject, it is compulsory to	
		obtain a minimum mark of 4 out of 10 in the exam.	
		b) Global final exam for those students that did not get through the first midterm exam	
		and those students that got through the first midterm exam but renounce to the	
		previously obtained mark (they have to notify it in writing before the exam to get	
		authorisation). The global final exam is worth 40% of the final grade. To get through	
		the subject it is compulsory to obtain a minimum mark of 4 out of 10 in the exam.	
		EVALUATION IN THE JULY OPTION	
		The final exam will be held on the date set by the faculty. The global final exam is	
		worth 40% of the final grade. To get through the subject it is compulsory to obtain a	
		minimum mark of 4 out of 10 in the exam.	

Assessment comments

The directed discussion derived from the proposed cases and problems aims to strengthen the understanding of the concepts and techniques studied. In consequence, active participation is highly recommended both during the sessions and conferences/seminars.

Part-time students with academic dispensation

In compliance with norms, they are required to contact with the lecturer before 30th September. Continuous assessment (60%: Seminar, Problem solving, Supervised projects and ICT practicals) will be assessed by means of a single oral exam. This activity will take place before the final exam. The aforementioned oral exam may deal with the theoretical concepts discussed during the course and every practical issue (including ICT use). The student must be able to explain her/his answers. At the beginning of the course a specific tutorials calendar will be scheduled.

Absent qualification

This qualification will be assigned to those students who:

- a) Did not attend the final exam
- b) Had participated in continuous assessment activities with a weighting lower than 20% of the final qualification, independently of the mark obtained in these activities.

Evaluation in the July option

The evaluation criteria used in the first option applies also in the July option. If a student intend to participate in a new process of continuous evaluation (60%: Seminar, Problem solving, Supervised projects and ICT practicals):

- a) It is compulsory to send an e-mail to the lecturer before the beginning of the July evaluation period. The student will have to renounce her/his previous continuous assessment and notify it in writing to get authorisation.
- b) Continuous assessment (Seminar, Problem solving, Supervised projects and ICT practicals) will be assessed by means of a single oral exam. This activity will take place before the final exam. The aforementioned oral exam may deal with the theoretical concepts discussed during the course and every practical issue (including ICT use). The student must be able to explain her/his answers.

For the exams

It is forbidden to access the classroom where the exam is held with any machine that allows communication with the outside and/or the saving of information, without the lecturer?s consent.
